REPORT OF SUPERINTENDENT OF ALEWIVE FISHERIES

To the Honorable Board of Selectmen,
Town of Weymouth.

Gentlemen:

I hereby submit my annual report as superintendent of Alewive Fisheries for the year ending December 31, 1939.

Approximately ninety thousand (90,000) alewives were deposited in Whitman's Pond for spawning. The first catch was made on April 21st and the last on May 25th.

The Welfare Department received four thousand two hundred (4200) as your board so voted.

The State Department took four thousand (4,000) fish and in return brought fish from other ponds here.

In closing my report, I wish to thank the members of your Board, the Weymouth Light and Power Co., the Weymouth Wool Scouring Co., Mr. Kelley, Superintendent of Streets, and the boys who worked with me for the help and co-operation which was so willingly given at all times.

Respectfully submitted,

THOMAS M. O'TOOLE,

Supt. of Alewive Fisheries.

REPORT OF SHELLFISH CONSTABLE

Weymouth, Mass., Dec. 31, 1939

Hon. Board of Selectmen,
Town of Weymouth.

Gentlemen:

I herewith submit my second annual report as Shellfish Constable of the Town of Weymouth.

In general, I wish to report that the provisions of Chapter 130 Mass. as accepted by our town government in 1938 have met with the approval on the part of those of our citizens who have availed themselves of its advantages.

The clerk of your board has notified my Department that he has granted over 80 permits this year which is a large increase over 1938 which also demonstrates the popularity of this law. The enforcement on my part has been one of enlightenment (explaining the law and distributing printed copies of the same) and not one of prosecution, which has been approved by those whom I have been in contact with, i. e. found had no permit at this time who later obtained same. While I found it necessary to order non-citizens (of the commercial class) off our flats with the warning if I caught them again I would prosecute—has met with good results.

As your board is aware, my duties as Shellfish Constable are merged with my Harbor Master and Special Police Duties.

I trust this report will meet with the approval of your board.

Respectfully submitted,

A. S. VEADER,
Shellfish Constable, Weymouth

REPORT OF BUILDING INSPECTOR

Honorable Board of Selectmen,
Town Hall, Weymouth, Mass.

Gentlemen:

I herewith submit the 1939 report of this office, as follows:

Building permits issued in 1939 were 193 with a value of \$527,880.00 and were composed of the following: 60 dwellings with garage attached; 38 single dwellings; 6 summer dwellings; 58 garages; 13 poultry houses; 4 storage buildings; 3 service stations; 2 barns; 1 roadstand; 1 dining car; 1 store; 1 greenhouse; 1 real estate office; 1 assembly hall; 1 school addition; 1 bleacher; 1 portable building.

Compared with 1938—one hundred and sixty-two permits with a value of \$384,635.00; an increase of \$143,245.00 in 1939.

Alteration permits in 1939 were 203 with a value \$95,713.00 compared with 1938 one hundred and ninety-two permits with a value of \$208,025.00, a decrease in 1939 of \$112,312.00.

Total building operations in 1939—\$623,593.00

Total building operations in 1938—\$592,660.00

Increase in 1939 over 1938—\$30,933.00

Receipts for permits in 1939 were \$820.00

I have made fifteen elevator inspections in December, all of which were found in good condition.

Respectfully submitted,

ANDREW A. CHISHOLM,
Building Inspector

REPORT OF ELECTRIC LIGHTING COMMITTEE
WEYMOUTH, MASS.

December 30, 1939

To the Honorable Board of Selectmen:

The appropriation for street lighting for 1939 was \$36,135.69 of which amount we are returning \$259.70. This is due to the fact that all streets proposed for acceptance were turned down at the Town Meeting and no lights were placed at those locations.

The inadequate lighting of Columbian Square has been called to our attention but we feel the results there are as good as in similar locations about town.

There have been several serious accidents on Bridge Street between Fore River Bridge and Bicknell Square. Hoping that increased lighting might help this dangerous location, we have, with the advice of General Electric and Westinghouse engineers, installed five experimental 1000 C. P. sodium lights. The result has been satisfactory and we are asking in our 1940 budget for money to add five more similar lights to continue this work.

We have increased the candle power of lights on Broad Street leading out of Lincoln Square toward East Weymouth, also at several dangerous intersections.

We have added a few C. P. lights at several locations about town.

The total number of street lights is now 1706, of which 1543 are of 60 C. P.

We are asking for \$36,469.36 in our budget for 1940.

Respectfully submitted,

JOSEPH KELLEY, Chairman
ALFRED S. TIRRELL
WALTER R. FIELD
OLINDO GARAFALO
J. HERBERT LIBBEY, Clerk

REPORT OF THE SUPERINTENDENT OF STREETS

January 5, 1940

To the Honorable Board of Selectmen:

Through failure of the State Legislature to appropriate sufficient funds to continue Chapter 90 projects in the several municipalities, no work was done on North Street at Weymouth Heights. The section of this street from the foot of King Oak Hill to East Street, was therefore left in very poor condition.

Although no streets were accepted this year, construction of sections of Green Street by W. P. A., Kirkland Road, White Street and May Terrace, completed distances previously accepted. Approximately 600 feet of Fogg Road was rebuilt, drains, including that from Weymouth Hospital, were relocated, and new catchbasins were installed. Widening of Essex Street, Winter Street and Forest Street, was done by W. P. A. Sea Street, from North Street to Bridge Street. Evans Street from Saunders Street to Rosemont Road, and sections of Lochmere Avenue and Pine Circle were resurfaced during the year.

Surface drainage, serious and vexing, has been given careful consideration for a long time. Many new systems were constructed by the W. P. A. and

the Street Department, most important of which were on Holbrook Road, Bicknell Road, Weybossett Street, Cain Avenue, Mt. Vernon Road West, Laurel Street, Fairlawn Avenue, Federal Street, Great Pond Road and Ralph Talbot Street.

Sidewalk and curb construction for the most part was under W. P. A. jurisdiction.

So much uncertainty exists about the layouts of Forest Street, Randolph Street, White Street and Kensington Road, that articles have been inserted in the warrant for the next annual Town Meeting, to establish definite property lines on the streets mentioned.

After long and faithful service on the Street Department, James F. Mitchell, 39 Shawmut Stret, East Weymouth, retired July 1, 1939.

The cooperation of the Board of Selectmen, the Police Department, the Fire Department and the Water Department, has been gratefully appreciated.

Respectfully submitted,

T. J. KELLY,

Supt. of Streets

REPORT OF CHIEF OF POLICE

REPORT OF THE BOARD OF APPEAL

To the Honorable Board of Selectmen,

Gentlemen:

The Board of appeal held four formal meetings during the year 1939 and considered 19 different applications.

10 applications were granted after consideration at a regular meeting; 8 were ratified at a regular meeting being previously approved by the individual members of the Board; and 1 was granted at a regular meeting of the Board subject to the condition that the abutter file his written consent with the building inspector.

Summary: 14 applications were for a building or an addition which would be nearer to the street line, or a lot line, or to another building than is allowed by the building laws, or for a proposed addition to an old building not in conformity with the building laws; and 5 asked for permission to use wood shingles.

Each application was individually and carefully considered, and the consent of the abutters required before approval in many cases.

Respectfully submitted,

RUSSELL H. WHITING,
Secretary.

REPORT OF THE CHIEF OF THE FIRE DEPARTMENT

The Honorable Board of Selectmen,
Town Office, East Weymouth, Massachusetts.

Dear Sirs:

I respectfully submit my annual report of the activities of the Fire Department during the year ending December 31, 1939.

The Department responded to six hundred and fourteen alarms:

Dwellings	92

The apparatus is in good repair with the exception of the Forest Fire Truck at Station Three which should be replaced next year. Engine Five and Ladder One of Station Five, and the White from Station Two were painted this year by the members of the department. Engine Three and the Squad will be painted during 1940.

The Stations are in good condition except for some leaks at Stations Two and Three which should be repaired; also these stations should be painted inside and out.

I wish to thank the officers and members of my Department for their co-operation; and to all those who have assisted the Department in any way, I wish to extend my sincere appreciation.

I wish also to thank the Boy Scouts for the cards they had printed and placed beside each Fire Alarm Box which, I think, has helped to reduce the number of false alarms.

Respectfully submitted,

TIMOTHY G. McCARTHY,

Chief of the Fire Department

GENERAL ANNOUNCEMENTS

Meetings of the Committee

Regular meetings of the School Committee are held on the first Tuesday of each month at the High School Building at 8 p.m.

Entrance Age

No child shall be admitted to school in September unless he has reached the age of five years on or before the first day of April preceding. Children entering for the first time will be admitted only during the first two weeks of school.

Birth Certificates

A birth certificate is required for entrance to the first grade.

Vaccination

No child shall be allowed to enter the first grade without a certificate of successful vaccination.

Quotation from State Law, Chapter 76, Section 15: "An unvaccinated child shall not be admitted to a public school except upon presentation of a certificate like the physician's certificate required by Section 182 of Chapter 3."

Employment Certificates

No child between the ages of fourteen and sixteen shall be allowed to leave school until a signed promise of employment card has been presented to the principal of the building in which he is attending school. Employment certificates and educational certificates are issued at the office of the Superintendent of Schools in the High School building from 9 to 10 a.m. every week day except Saturday.

REPORT OF SCHOOL COMMITTEE

To the Citizens of Weymouth:

The School Committee herewith submits its report for the year 1939, together with the thirty-first annual report of Mr. Parker T. Pearson, Superintendent of Schools, and reports to him from the several departments, all of which are made a part hereof.

The resignation of our Superintendent, made to take effect on January 1, 1940, and regretfully accepted by the Committee, has marked the termination of an official connection unique in the annals of our town. Under a single direction during the past thirty years a better and greater school system has been erected upon old but firm foundations. A young, vigorous, level-headed gentleman and scholar came to us in May, 1909, to assume direction of an undistinguished department. Our town entered into a period of steady, but healthy, growth. He expected, and received, for his department the encouragement and support from his fellow townsmen that the changing conditions required. The loyal co-operation, through thirty years, of townsmen and parents, teachers and principals, committees and superintendent, have made our schools better schools, and our town a better town. A good school system is a cornerstone of a better town. That we have, and that we shall keep. Let us hope and expect that many future reports of School Committees addressed to the Citizens of Weymouth will in part be addressed to Parker T. Pearson, Citizen of Weymouth, and one of us.

Our new Superintendent, Mr. Charles R. Thibadeau, comes to us from a similar position in Newburyport, where for five years he successfully directed the schools, following a like position in Marion. Previously, his teaching experience has been extensive. He is a graduate of Bates College, in Maine, with a Master's degree in Education from Harvard. He has further studied at Boston University. There was a large number of worthy and competent candidates to fill our superintendency vacancy. From such a group he was chosen. The Committee believes that Mr. Thibadeau has the experience, ability, and other qualities needed for the successful direction and improvement of our schools. He is young enough so that the Town may expect from him an effective continuity of service. He also will receive the support and co-operation of all those who come to know him.

We are glad to announce that the construction of the addition to the Edward B. Nevin School is nearly completed. This work, under the law, has been done under the direction of the Board of Selectmen, since no particular committee or other agency was designated to carry out the vote of the last annual town meeting which made the appropriation. The Board of Selectmen tactfully, and we believe wisely, chose to constitute the existing Building Committee, created under a vote at the annual meeting of 1938, the agents of the Board to carry out the details of an undertaking with which the Board were

then not familiar. The relations of Board and Building Committee have been founded on mutual confidence and respect. Before this report is in print, public use of the new auditorium at the Nevin School will have been made. The land on Nevin Road recently acquired will make a useful enlargement of the school grounds.

Upon request, the Committee offers for the Annual Warrant an article designed to authorize the use of income from the John B. Rhines Fund toward the purchase of materials for the enlargement of permanent seats at Legion Memorial Field; and also an article for an appropriation for sanitary improvements at the Old Pratt School. Both articles deserve careful consideration.

Herewith follow our estimates of expenses for the coming year, with comparative figures for the year last past:

REPORT OF THE SUPERINTENDENT OF SCHOOLS

Members of the School Committee:

I herewith submit my thirty-first report, the same being the fifty-fourth in the series of annual reports of superintendents of this town. Separate reports received from the special teachers are appended, and should be given due attention.

ACCOMPLISHMENTS

1. Addition to Edward B. Nevin School, 4 rooms and gymnasium, nearly completed
2. Lot of land in rear of Edward B. Nevin School purchased for playground purposes

Note:—According to agreement, this is not to be used unless fences are erected.

3. Study room on third floor of old High School building equipped with 70 new desks to provide additional seating capacity
4. Extra drawing room provided and equipped in the main building for pupils of the Vocational School
5. Additional teacher employed for sheet metal work
6. Chain link fences erected at James Humphrey, Hunt, and Bicknell Schools
7. Plan of Bicknell School grounds revised, with provisions made for full sized baseball field, 7 tennis courts, skating rink, and area for summer play equipment

Note:—The work is nearly completed.

8. Extensive repairs to Jefferson School, occasioned by fire damage, together with major improvements to the building

RECOMMENDATIONS

1. Continued co-operation with the W.P.A. Department:—
 - a. To improve school grounds, paint buildings, and perform such other tasks as are not contemplated in the budget
 - b. Erection of grandstand on Legion Memorial Field, as suggested in last year's report
 - c. Grading and fencing the Edward B. Nevin School grounds
 - d. Completion of retaining wall at Pratt School
2. New toilets at Old Pratt School

Note:—An article is in the Town Warrant covering this item.

3. Extension of shop work to provide for increasing demand for trade instruction
New courses in welding, machine shop work, interior decorating, plumbing, and baking for boys are suggestions.

ITEMS OF INTEREST

1. There are no illiterate minors of record in this town.
2. Twenty-six truancy cases from an aggregate attendance of 806,781.5. Cost of truancy to the town—\$13.50
3. Per cent of attendance:—93.52
4. There continue to be no pupils in state schools organized for correction of truancy or school delinquency.
5. Cost of education per pupil in average membership:

WEYMOUTH		STATE	
1938	\$88.45	1938	\$100.41
1939	86.44	1939	102.07

6. Increase in school population in 5 years:

As of the close of school in June:

	High	Elementary	Total
1935	1,401	3,419	4,820
1936	1,397	3,353	4,750
1937	1,533	3,300	4,833
1938	1,576	3,235	4,811
1939	1,621	3,252	4,873

As of December 22, 1939:

High	Elementary	Total
1,647	3,189	4,836

7. Forty-six of last year's High School graduates known to be continuing their education
8. High ranks are being obtained in many institutions of higher learning by graduates. Several in Massachusetts Institute of Technology are on the Dean's List; and one, in the upper 2% of his class
9. No pupil certified for college for over twenty-five years reported as failing
10. Musical Conclave of Mayflower Festival Association for 1939 held at High School on May 9
11. Credits to be deducted from school appropriation to determine net cost to town:

The enrollment figures show a mixed trend. In the lower grades there is a gradual shrinkage, while in the upper grades the increase continues. How long this condition will exist, no one knows. A similar situation all over the country is a matter of comment. In five years the number in the elementary grades has decreased by 167; the High School, however, shows a gain in enrollment of 220. This makes a net gain of 53 for the June periods. It is interesting to note that there are more pupils in the High School than in Grades I, II, III, and IV, combined.

Two years ago a law was passed making it obligatory for a town to have Italian taught in the high school, provided 25 parents petitioned the School Committee, and 25 or more students signified their intention of taking the subject.

A petition was presented by the Loggia Giuseppe Verdi No. 278, Sons of Italy Grand Lodge, together with the names of students who presumably would take a course in Italian. The Committee voted to have Miss Anita Petrucci start a class in beginners' Italian. The enrollment was 33, but within two weeks the number dropped to 16. At the close of five weeks there were only 11 attending, four of these having been on the original list. The class was discontinued on October 23.

It is a pleasure at this time to express my appreciation for the wonderful work of the Athletic Council. Looking back over the years, I remember the difficulty of financing the various sports. It was always a question of money, and more money. The children were called upon to furnish funds which they could ill afford. During the time since the Athletic Council has assisted, the financial status has been very good. It has been possible to give members of the football, baseball, basketball, track, and wrestling teams the equipment which they needed. In fact, one of the coaches told me recently that our teams were as well or better equipped than any of those with whom the boys came in contact. This work of the Council, started by Mr. Albert Vinal, and continued under Mr. Raymond Stein, the present head of the organization, should receive the appreciation and support of the townspeople. At the annual banquet held on December 13, primarily for the football team, 18 sweaters were presented letter men football players of the senior class; and two, for track. During the year 17 additional sweaters had been presented to contestants in other sports. The Oscar Horton Trophy, for excellence in sportsmanship, athletics, and school work, was presented to Alan W. Sampson, of the High School; and the Anonymous Trophy for the most improvement during the football season, to Parker W. Bates, of the Vocational School.

The record of games, etc., is as follows:

	Won	Tied	Lost
Football	7	1	2
Baseball	7		3
Basketball	8		8
Wrestling	9		1
Track — Indoor Teams			
Relay	1		1

The School Department has been very fortunate, in that there have been so few changes in the personnel. Four teachers resigned to be married; two retired under the provisions of the Massachusetts Teachers' Retirement Act; and one died.

Miss Grace A. Randall came to the Lincoln School in 1903. I shall always remember her as I saw her first with Miss Katherine C. Keohan, the teacher who shared with her the work of the first two grades. She was a strong and conscientious teacher. Miss Randall will be missed by the many pupils she taught in the Hunt group, and by the parents whom she served so faithfully for thirty-six years.

Miss Hazel M. Agnew began her work in the Commercial Department of the High School in 1920. She taught her subject in an excellent manner. Her influence over the pupils under her charge was unusual and decidedly beneficial, not alone in the commercial studies, but in the broadening of their characters as well. Miss Agnew is missed in the High School. She has the good wishes of her associates and pupils, and of the townspeople.

Owing to the shrinkage in the number of pupils in the lower grades, two assistant positions were abolished; and one room in the Center School was closed. One teacher was added to the teaching force in the Vocational School, to take care of the additional number of pupils who applied to take the work in sheet metal.

Two janitors retired this year under the provision of the Contributory Retirement Act; namely, Mr. Henry Blanchard, of the Adams Schools; and Mr. Emil J. Olson, of the Bicknell School.

The reduction of \$3,000.000 in the appropriation for maintenance and outlay made it impossible to place new toilets in the Old Pratt School. This work should be done during the coming year, at an estimated cost of \$3,000.00. It presupposes the re-location of the toilets in the center of the building, with light and air from both sides. The old boiler room will have to be filled in and several partitions removed to permit the work. If these changes are made, the toilets will be as good as any in town.

The fire in the Jefferson School on August 8 was an untoward circumstance. It was possible, however, to repair the damage to the building before September 1, without interference with the school program. From the findings of the insurance adjusters, it was evident that the fire was caused by a pile of rags which had been saturated with oil and used in repairing furniture. Although the material damage was comparatively slight, the loss was heavy from damage by water and smoke to books, supplies, paint, and woodwork. The floors and ceilings were entirely replaced in two of the rooms and in the adjacent corridors. The woodwork and ceilings were painted throughout the building. This emergency developed further the fact that the tower containing the clock had become badly decayed. It was necessary to rebuild practically the entire outside of the tower, and to re-decorate the clock. Stone steps were constructed, replacing the wooden ones which had been in poor condition for a long time. The insurance adjusters were very fair in their treatment. They allowed \$3,515.00 on the building, and \$920.00 on the contents, a total of \$4,435.00.

The major items under maintenance and outlay which should be enumerated are:

The new stoker at the Shaw School

Re-tubing two boilers: one at the High School, and one at the Hunt School

Waterproofing and pointing of the outside walls of the hall at the Bicknell School; and replacement of the old wooden steps with permanent ones of cement

Waterproofing and pointing of the walls of the Junior Annex, together with the setting of the cap stones

Re-seating of two rooms in the High School; and the replacement of the old kalamein fire doors with new ones of our own construction

Installation of new gas service; and part of the expense of pitting the boiler room at the Edward B. Nevin School

Aside from these major repairs, there has been an increasing quantity of work necessary to keep in operation doors, windows, floors, and other wearing parts of buildings which are twenty or more years of age.

In the spring Miss Marguerite S. Clapp, of South Weymouth, presented to the High School Library a set of Encyclopedia Americana

in memory of her brother, David Capen Clapp. Acknowledgment was made by the School Committee.

In the closing days of the year a letter was received from Mr. Alfred C. Sheehy, Chairman of the Committee which had charge of the Ralph Talbot Memorial Exercises on October 31, 1936, stating that a sum of money could be used for some purpose connected with that event. He stated that the money would be made available, if an additional plaque commemorating Ralph Talbot and similar to one installed on the U. S. Destroyer Ralph Talbot could be placed in the High School hall. Additional money has been secured to complete the amount necessary to purchase the plaque, which is now ready and waiting to be installed at some appropriate time.

In conclusion, I wish to thank the School Committee for its many courtesies extending over a long period of time.

The thirty-one years that I have been present in Weymouth have been pleasant ones, due in large measure to the continued co-operation and support of the many Committees who have served the town conscientiously and without thought of personal profit or gain. I have been proud of the fact that these Committees have been non-political in their complexion; that they have considered the welfare of the pupils above that of the members, or the needs of the single individual seeking a position. If the schools are to progress, this same spirit must continue.

As this is my last report, it seems only fitting and proper that I should speak of the admiration that I have for the Chairman of your Board, Mr. Prince H. Tirrell, who has been a close associate for nearly thirty years, either as Chairman or as Secretary. His good judgment and helpful spirit have been a bulwark of strength in many trying situations.

The generous support of the schools by the citizens of the town, the loyalty of the teachers to their chosen profession, the quality of the work being done by the pupils, lead me to believe with Tennyson:

“Yet I doubt not through the ages
one increasing purpose runs,
And the thoughts of men are widened
with the process of the suns.”

Respectfully submitted,

PARKER T. PEARSON,
Superintendent of Schools

WEYMOUTH HIGH SCHOOL
(Report of Mr. Wallace L. Whittle, Principal)

At the risk of having my report become monotonous, I am again drawing attention to study habits and program selection. It is a fairly common practice for parents to call the high school and say that their children have no home work and are not doing well in their subjects. Good grades are dependent on study. The average study time in a school day is one and one-half hours, and four or five subjects cannot be fully prepared in such a short time. It would be advantageous to all concerned for a weekly home study program to be made out each year so that parents could then tell definitely what subjects should be prepared each night.

In regard to the selection of courses, the growth of the school is making the possibility of changes continually less. The election of subjects should be made in April with the idea that they are to be permanent. Unless this is done, it is probable that the pupil will not be able to take the courses that he desires.

One of this year's problems will illustrate this point. When the program was made, fifty-eight pupils had elected biology. Therefore, two divisions of twenty-nine each were provided. Two weeks after school opened, over one hundred wished to take biology. Inasmuch as we can seat only thirty-five in the room, there were at least thirty pupils who necessarily could not take the subject. If biology had been elected by these pupils in April, we would have made three divisions and accommodated all.

The same situation arises in many other subjects. The program can readily be made to suit all elections, but once it is completed, very few changes can be made. As we wish to have each student allowed to take the subjects of his choice, we ask that the parents co-operate wholeheartedly to help us accomplish this end by making the April elections permanent.

The distribution of pupils at the end of the first marking period was as follows:

We have, as usual, had some increase in our enrollment; but, in spite of this, we had to relinquish one room for the use of the vocational school, which also had a large increase. Our divisions were consequently made larger than we should like. However, the situation was alleviated somewhat by a complete rearrangement of one of our rooms so that it can be used as a study room accommodating seventy-seven pupils.

It is interesting to note that the total number of persons who eat in the cafeteria, including the Junior Manual Arts Class, Junior Annex, and teachers, is 1,930. Inasmuch as the cafeteria was built to take care of a maximum of six hundred at one time, it may be seen that we accommodate far more than this number at each of the three relays.

The co-ordination between grammar and high school work has continued, and we feel that definite progress has been made for the children's benefit. Plans have been made for future work along this line.

We are still receiving N.Y.A. aid. This year we have twenty-seven pupils on the pay roll who may receive \$6.00 per month per pupil. Needless to say, they all appreciate this help.

Our extracurricular activities are functioning well. It might be of interest to list these activities, as I feel that few persons realize the different fields or the number of pupils included in them. During the past year the following numbers participated:

Football	85	French Club	30
Basketball—Varsity	20	Science Club	12

A new scholarship has been presented this year jointly by the Daughters of Italy and the Sons of Italy. This means that another deserving boy or girl may be aided.

Scholarship awards in June were as follows:

It is with extreme regret that we say good-bye to Mr. Pearson. The entire community, and particularly those of us who knew him and his work well, will feel a distinct loss. He leaves behind him a school system of which he may well be proud. May we all co-operate fully to have our schools maintain their high standards of the past.

VOCATIONAL SCHOOL

(Report of Mr. Francis E. Whipple, Director)

Probably the most striking feature of the year was the great increase in interest on the part of parents and children in vocational education.

One hundred and eight boys were admitted as freshmen, the largest number ever. This makes the total enrolment to date 212 boys, or 38 more than during the same period last year, and 91 more than three years ago, a 75.2% increase since 1936. These boys are of a high type, and come with an intense desire to learn a productive trade. The escape motive occasionally noticed in the past does not appear in this group.

The largest part of the increase is accounted for by the sheet metal work, a new department organized in 1938. It was thought when this department was started that some of the load would be taken from printing and auto repair, but that has not happened. These departments have become even more popular, and large numbers have applied for admission to the sheet metal work.

Provision for these boys presented a serious problem, some aspects of which are still unsolved. The drawing and home room problems were improved by using a room in the high school. An additional teacher in sheet metal work was employed to handle part of the related instruction. Proper furniture for the drawing room was not available, but is being built in the cabinet shop. The State has imposed requirements which must be met: there must be more room in the sheet metal shop up to a minimum of 75 sq. ft. per boy, and there must be more tools available for students. Thirty-two boys require more space and equipment than the twenty originally planned for. Some room may be taken from the cabinet shop, where the enrolment is not large. Tools and equipment must be obtained in 1940.

These additional pupils bring stress in other directions. Teachers handling academic subjects are carrying loads up to 39 periods per week and up to 38 boys per class. The normal load is 35 periods and 24 boys. The routine clerical work in the office is assuming such proportions as to require a full-time clerk. These situations should be relieved.

In the automobile work, the lessening of the demand for mechanics and the increase in demand for painters and fender men continue. We have met this by spending more time on the body work, and without alterations to our facilities. During this coming year, a satisfactory paint room should be built in the interests of safety and health. Plans for this have been prepared in our drawing departments. Facilities for teaching motor tune-up should be provided, since in this branch of automobile repairing, and fender work, the bulk of work is done on present-day cars.

Some device should be used to restrict enrolment in printing and sheet metal work. Placement in printing has always been good, but the field is not unlimited, and we should not turn out too many printers. In sheet metal work, the field is limited to Fore River, the Navy Yard, and metal shops in Boston. There are only a few opportunities in Weymouth or on the South Shore. Almost all applicants in this department have Fore River in mind as a place of employment and have relatives or others who may aid them in securing jobs. Our success in placing boys directly in Fore River has been negligible, but many are placed by other means, usually because they profit from Fore River's policy of preferring relatives of present employees. If the boys succeed in getting in to Fore River by this route, all will be well; for those who do not, we are establishing contacts with the Civil Service Commission for the Navy Yard, and various industrial plants and metal shops in Quincy, Boston, Weymouth, and surrounding communities. Until we know definitely how many metal workers can be absorbed, the enrolment should not be increased over the present number.

The State recommends this policy in regard to sheet metal work, and further recommends the immediate establishment of other courses to help relieve the situation. Their first suggestion is a course in welding; another is in machine work. Other courses to be considered are in baking and chef work, wood and metal finishing, and even a revival of the course in shoemaking. In connection with shoemaking, it is interesting to note that more persons follow this trade in Weymouth than any other single occupation, and that of the boys graduated from our original shoemaking department, more than seventy per cent are at the present time profitably engaged in that trade. These recommendations, however, would make necessary to house the classes additional room not at present available.

In spite of the limited amount of time which can be devoted to placement of graduates and former students, results are very gratifying. Last June there were twenty-two graduates, all of whom have been placed through our or their own efforts. Some have had more than one job. Fifty-eight jobs have been obtained through our placement activity this year. As time goes on and the school becomes more widely known among employers, there should be no difficulty in placing all students who are able to hold a job and are willing to work.

Some interesting sidelights appear on the various courses through the placement work. The demand for automobile mechanics, as mentioned before, is only fair, but we have been unable to fill calls for painters and fender men. For the first time in several years, all the cabinetmakers have been placed. There should be improvement in employment in this field. The demand for printers continues good. Boys who can operate the two modern pieces of equipment we have,—the Linotype and Miehle Vertical,—find ready employment. One boy who had been working at the trade came back to school for a short intensive course on the Miehle Vertical and immediately secured a job operating one at a considerable increase in salary.

For a number of years much of our printing equipment has been obsolete. The two modern items of equipment, and the success in the trade of graduates who can run them, show the desirability of keeping up with current trade practices. Only one boy was graduated from the sheet metal department, and he is currently attending another school. Most of the boys who left this department have found employment as apprentices at Fore River, the Pneumatic Scale Corporation, and other plants doing sheet metal work. If this record can be taken as a sign, there should be opportunity for a moderate number of boys in this work.

The work in the various departments continues along the usual lines, with consideration being given to after-graduation needs of the boys wherever possible. The automobile departments administer treatment with marked success to a wide variety of ailing vehicles. In cabinetmaking, the outstanding jobs have been pupils' desks, smoke doors, and typewriter desks for the high school, and a speaker's lectern for a local organization. Some thought should be given to expanding the variety of work in this department to include some of the finer types of wood work. Outstanding work in printing includes the Reflector Year Book, graduation printing, and many well designed programs for various school events. Increased emphasis is placed on linotype and automatic press operation, since these offer the best chances for employment after graduation. The sheet metal department is fortunate in having a strong group of teachers familiar with many different branches of the work. It is thus possible to draw upon their experience in various types of utensils, ventilation, furniture, doors, lockers, and other metal work.

Athletics in the school have been carried on for many years through the generosity of the teachers in giving their time for coaching and their automobiles for transportation. They receive no compensation for their time or expense. During the year, two of the newer teachers assumed the coaching responsibilities which the older teachers had previously carried on. The coaching of all these men has been excellent, conscientious, and much appreciated. The transportation problem has been solved by welcome aid from the High School Athletic Association.

Last year several things were recommended, which for one reason or another were impossible to accomplish. New window shades are needed throughout the building to replace those worn out and showing signs of falling apart. Additional window space is needed in the composing room section of the print shop, to bring the light up to the minimum State requirements. At the rear of the garage parking space, the incinerator should be replaced by one which does not scatter sparks and embers on the cars nearby, or set fire to the surrounding brush. Several times this fall the Fire Department has had to extinguish brush fires from this cause.

An increasing amount of maintenance and repair throughout the school system has devolved upon the vocational department. Almost

all of the plans for improvement, new equipment, and extension of school plant have originated in its drafting department. The experience and ingenuity of the director and of the teachers have been drawn upon fully in consultation, supervision, and completion of the various projects.

The enrolment figures up to December 22 are shown in the following table:

	I	II	III	P. G.	Total
Auto Repair	42	18	12	0	72

Printing	20	17	15	2	54
Sheet Metal	34	22	10	0	66
Total	108	62	40	3	213

Of the 108 freshmen, 4 were admitted on a special basis without having completed the eighth grade; 2 were repeaters; and 32 had attended high school for varying periods from a few weeks up through graduation. There are 67 pupils who come from other towns, as follows:

Abington	2	Pembroke	7
Braintree	26	Quincy	4
Cohasset	2	Rockland	13
Hingham	10	Whitman	6
Hull	1	State ward	1

It is well known that this school is the direct result of the vision and foresight of our Superintendent of Schools, who is retiring at the end of this year. He has been a leader in Massachusetts in furthering this type of education. For many years, Weymouth was one of only two towns in the State having a vocational school. It surely must be a source of great satisfaction to Mr. Pearson to now see such tangible evidence of his wisdom, as shown by the popular acceptance of vocational education which has been witnessed during the past two years. His only object has been to create a school system which would give to all the children of all the people what they need to make them good citizens and good workers in the community. During the past fourteen years, his inspiration, guidance, and encouragement have been a great source of help to me personally. Upon his retirement I can only thank him for all these things, and wish him many years of health and happiness.

AGRICULTURE

(Report of Mr. Hilmer S. Nelson, Agricultural Instructor in charge of the Weymouth Branch of the Norfolk County Agricultural School)

The present-day accepted psychology of education has changed materially from the old-fashioned theory of book assignment lessons

and recitations to a broader field of thought wherein the student becomes a part of the scheme. In the future, there will be less of the cultural and more of the vocational trend in education, more particularly in agricultural education. As time marches on in this troubled world, the individual who has been the recipient of such an education will be rewarded as a builder of stability, for fortunate is he who understands the philosophies of the soil. So true it is that "agriculture affords as stimulating a challenge to intelligence today as does any one of the callings demanding higher education." (Charles H. Judd)

The opening of school in September 1939 showed a total enrollment of thirty-eight students, divided according to classes as follows:

Seniors	9
Juniors	10
Sophomores	11
Freshmen	8

These thirty-eight students may again be interestingly divided geographically as follows:

East Weymouth	13
South Weymouth	13
Weymouth	4
North Weymouth	3
South Hanson	3
South Braintree	1
Quincy	1

The last fifteen years show the following yearly average enrollment:

1939	38	1934	29	1929	23
1938	42	1933	26	1928	23
1937	42	1932	21	1927	20
1936	38	1931	26	1926	20
1935	35	1930	27	1925	17

During the past ten years (1939-1930) we find the classes divided as follows:

	1939	1938	1937	1936	1935	1934	1933	1932	1931	1930
Seniors	9	4	8	8	1	4	6	7	3	5
Juniors	8	10	10	9	8	3	5	6	8	3
Sophomores	11	14	9	9	12	9	6	5	7	11
Freshmen	10	14	15	12	14	13	9	3	8	8
	—	—	—	—	—	—	—	—	—	—
Total	38	42	42	38	35	29	26	21	26	27

Our graduating class (June 1939) of four seniors were as follows:

James F. Herlihy, East Weymouth
James E. McFarland, East Weymouth
Charles W. Muster, South Weymouth
Charles W. Workman, East Weymouth

It may be interesting to know that the employment of these four graduates is indicative and comparable to what our graduates have done in past years: two are postgraduates in the high school, with the idea of entering an agricultural college; one is full-time employed on

a poultry farm; and the other, although not employed in an agricultural enterprise, is spending part time on a home poultry project with the hopes of future permanency.

The home ownership project has been encouraged, but, owing to the lack of home facilities and funds, such projects have become fewer since our last report. The trend toward supervised farm practice work has taken its place, and well may it be that way, because good practical experience on a well organized commercial farming enterprise is more to be preferred than the knowledge and experience gained from a small home project below commercial grade.

However, there were ten students reporting thirteen home ownership projects divided as follows: eleven poultry, one dairy calf, and one dairy goat. The eleven poultry projects totaled 457 adult birds and 584 chicks. The actual receipts from these thirteen projects were \$2842.55, with actual expenses \$1612.70, leaving a balance of \$1229.85. Accurate monthly and yearly accounts are kept on each project to assist in locating errors in management. The home ownership project is the key to successful vocational agricultural teaching. We hope the future may provide the opportunity for more home projects which have become valuable assets toward a well-rounded life.

In summarizing the supervised farm practice work that the thirty-eight students have received during the past project year (October 15, 1938 to October 15, 1939), there were reported 33,766 hours, with a value of \$6429.74. This practical experience was secured on various agricultural enterprises, such as dairy farms, poultry farms, goat farm, market gardens, greenhouses, small estates, general farms, and others. One student was located on a fine poultry farm in Guilford, New Hampshire, while our long-distant student was located on a very large up-to-date dairy farm in South Montrose, Pennsylvania. The others were distributed on farms in the eastern section of Massachusetts: South Braintree, Hingham, Abington, Norwell, Whitman, Plympton, South Hanson, Walpole, South Easton and the several parts of Weymouth. While the students were on these jobs, the instructors visited regularly, checked on certain requirements, and assisted both employer and student. By means of definite follow-up work, the students on the job were graded as to their capabilities and personalities which will be of a material benefit in the future.

The educational program has been followed according to plans, with changes to meet conditions and situations. The co-operation of the teaching staff of the High School has been splendid. The several shops of the Vocational School have been used in shop practice work, and splendid co-operation has been received from the director, Mr. Francis E. Whipple, and the shop instructors.

Again we wish to thank publicly those persons who have so generously given of their time and experience in order that our classes might receive practical experience on their several successful farming enterprises:

Mr. Albert H. Kress, Hingham	Dairy
Mr. Paul E. Kress, Hingham	Market Garden
Arnold Brothers, Braintree	Market Garden
Mr. William Ralph, South Weymouth	Greenhouse
Mr. E. A. Hirt, South Weymouth	Poultry
Mr. William Monto, Norwell	Poultry
Mr. Norman E. Belcher, East Weymouth	Poultry

To Mr. Jack Sturtevant, my assistant, I owe a great deal for the success of the department; his co-operation and help have been appreciated. To Mr. Wallace L. Whittle, Principal of the High School, I wish to extend my thanks for his splendid co-operation. To Mr. Parker T. Pearson, who has so faithfully served the Town of Weymouth as Superintendent of Schools for these past thirty-odd years, may I extend many thanks for his loyal support and splendid co-operation in vocational agricultural education. To Mr. Charles R. Thibadeau, our new Superintendent of Schools, may we welcome you. To Mr. Charles W. Kemp, Director of the Norfolk County Agricultural School at Walpole (of which this department is a branch), may we again extend our thanks to you and your Board of Trustees for the splendid co-operation and timely assistance that have been received.

COURSES OF STUDY

(Report of Flora Haviland McGrath, Director of Courses of Study)

How to hold the middle course on that educational path which passes between the progressive, activist school on the one side and the formal, traditional one on the other, and how to apply that part of the educational philosophy of each which seems best suited to our needs, is our challenging problem. In one there is the danger of too much activity and too little learning; in the other, authoritarian teaching with passive pupil acceptance.

This year, a number of Weymouth teachers have carried out programs based on a fusion of these philosophies with excellent results. We have had activity programs in science, English, geography, and history. Real learning situations have been created in these classes where through wise and efficient teacher-guidance pupils have been led into new and rich experiences.

These teachers have made of their profession an art rather than a job.

TESTS, MEASUREMENTS, AND GRAPHS

The use of tests, measurements, and graphs is sometimes questioned by those who have not investigated the field. No organized business can be carried on successfully without bookkeeping. Tests and measurements, inadequate as they may seem at times, are a means

of making an evaluation of pupil ability and pupil progress in subject matter. The children in a class are all on different learning levels. The alert teacher, recognizing this fact, tries to ascertain those levels and later to check pupil progress. While it is impossible to measure certain intangible elements which are a part of pupil growth, it is possible to measure achievement in subject matter. This we attempt to do.

SUMMARY OF ARITHMETIC TESTING,
FEBRUARY AND MARCH, 1939

All pupils from grades IV through VIII were given a general test to determine, insofar as possible, what had been achieved up to that point. In grade IV there were several classes throughout the town where approximately one-third of the class had perfect scores; in other classes there were no perfect scores.

Grade IV	Medians 60 to 90
Grade V	Medians 65 to 100
Grade VI	Medians 65 to 85
Grade VII	Medians 50 to 90
Grade VIII	Medians 50 to 100

This median of 100 was in an A division.

ARITHMETIC SURVEY,
OCTOBER AND NOVEMBER, 1939

This survey made from grade II through grade IX was designed to measure what had been retained from previous grades. All children who had entered the Weymouth school system from other towns or systems within the last two years were recorded. With few exceptions, those entering from other systems were found to have an arithmetic deficiency ranging from 10 to 40 points below the class medians.

The testing in grades VIII and IX brought out one very interesting feature; namely, uniformity of preparation. In grade VIII, three A divisions from different parts of the town had the same median with the same number of perfect scores.

The results of this survey indicate a need for a change of teaching methods and a decreasing of the amount of arithmetic taught to those pupils whose averages are consistently low.

ENGLISH

The testing and checking of English which has been conducted three times a year during the past was omitted from the supervisory program this year.

When one of our own teachers makes a contribution of organized material which may be used to advantage by many teachers, that teacher gives a valuable service. Miss Ruth M. Reidy, principal of the Jefferson School, has written an excellent set of "Corrective English Exer-

cises" which has been placed in the hands of the teachers for daily use. This booklet makes a satisfactory supplement to our present English outline.

SPELLING AND WRITING

During February and March 1939, the entire school population through grade VIII was tested in spelling. At this time, writing progress was checked and deficiencies noted.

Those classes in which one-half or more than one-half of the class had perfect scores with excellent writing were as follows:

Grade II—Adams, Pond

Grade III—Jefferson, Athens

Grade IV—Hunt (both classes), Nevin, Adams, Jefferson, Athens, Pond

Grade V—Hunt (one class)

Grade VI—Adams, Hunt (one class), Humphrey, Shaw

Grade VII—James Humphrey, Nevin, Jefferson, Adams, Bicknell, Pond

Grade VIII—Medians ranged from 70 to 90. No class had one-half or more perfect scores.

The general science course which was introduced into grades VII and VIII in 1937 has been working out satisfactorily. Science readers are now being placed in the lower grades in order to give some background work for grades VII and VIII.

The following brief report from one of the teachers in grade III after using the new science reader indicates the interest in the lower grades:

"Much enthusiasm and interest are being shown gathering insects, collecting seeds, fall fruits, leaves, rocks, etc. Many simple experiments have been performed with few and inexpensive materials. Jars for insects, a magnet, a magnifying glass, receptacles for dissolving salt, sugar, etc., have been brought in by the children. Observations will be continued during the winter,—weather conditions, temperature readings, growth of flower bulbs, and other subjects of interest . . . "

A number of well-planned demonstration lessons in science have been given in grades VII and VIII. One of the outstanding demonstrations with equipment made by the boys in grades VII and VIII was given at the Bicknell School under the guidance of Mr. Doyle. At this demonstration were experiments with atmospheric pressure, preparation of carbon dioxide gas, preparation of oxygen, manufacture of coal gas, use of the conductometer, diagrams and explanations of water supply systems, and a series of excellent demonstrations in the generation of power.

We still lack facilities for experiments in many of the schools. It would be of great value to have a special science room or laboratory in each of the eight-grade buildings.

READING AND LITERATURE

The new basal reading system, which is being used experimentally in grade I in conjunction with parts of our old system, is now in its second year and is proving satisfactory.

In order to stimulate the reading interests of boys and girls and to increase their appreciation of literature, the Trustees of the Tufts Library, with the aid of the Tufts Fund, have sent to the Weymouth schools once a week Mr. and Mrs. John J. Cronan, professional story tellers for the public libraries of Boston.

The results of this splendid co-operation between school and library have been most gratifying. Miss Evarts, librarian of the Tufts Library, who is responsible for the organization of this excellent plan, has reported that the library has not been able to fill the many demands of the school children for the stories of the "Iliad" and "Odyssey" as a result of this inspiring program.

EXTRACURRICULAR

The usual coaching program has been carried on. This year, in June, the senior class presented "You Can't Take It With You" by Moss Hart and George S. Kaufman. The seniors did an excellent piece of work. The Weymouth Teachers' Association gave a very fine performance of "Our Town" by Thornton Wilder. This activity is carried on annually for the benefit of the scholarship fund.

I wish to thank all those who performed so artistically in the play and all those who through hard work in arranging lighting effects, sound effects, and other technicalities made this performance a success.

IN CONCLUSION

To those teachers who worked with special diligence and vision, no words of praise or appreciation are necessary,—their reward is in results. To the members of the school committee, to the principals, and to the teachers I wish to express my appreciation. To Mr. Pearson, Superintendent of Schools, I wish to say, "I am grateful for your help; I deeply regret your leaving."

DRAWING

(Report of Miss Evelyn Silvester, Supervisor of Drawing)

This is my twenty-second consecutive report as supervisor in charge of freehand drawing taught in the Weymouth schools. All of these reports have been handed to Mr. Pearson as our Superintendent.

The years represented by these reports have been gratifying ones from all points of view. This is due entirely to his policy, upheld so well by an able School Committee, of placing the responsibility for successful work upon the person doing that work, making one feel not like a cog in the wheel, but like a master, each of one's own destiny. This attitude is one which holds with it a challenge to work with

every bit of power and ability one has to give. The result is, of course, bound to be one of achievement. When one can see his thoughts and plans and efforts unfold into concrete and, we hope, successful results, then one is sure to find joy in that work and a desire to go on building up year after year to always higher levels. To those of us who do the art work, it has been an inspiring leadership to follow, for creative work thrives particularly well under such conditions.

In thinking back over the past twenty-odd years, I can see a steady and not a jumpy progress. It is due again to Mr. Pearson's wise advice,—that to be always a pioneer is not very satisfactory in educational matters. It keeps the system always on edge and disrupts progress if any of the experiments prove to be failures. But easing in new ideas and methods slowly, adjusting and settling them to a steady level to suit the needs of the child, is true education.

Another standard Mr. Pearson has set for us is that we teachers should remember that the schools are for the benefit of the children and for their educational advancement. We should see to it that we give our services toward that goal.

In the earlier years of this period, he asked that carefully detailed plans for the drawing lessons be given, so that the grade teacher in her part of the teaching would have the work planned for her. This resulted in lessons with little flexibility and with little chance of being correlated with other subjects. Gradually, as new teachers have come to us with study in normal school of the modern methods of teaching creative art work as a part of an integrated program, we have used a freer approach to our work, with very happy results.

We believe that while we still have far to go to reach the goal we hope for in this direction, we have made strides forward in the following ways:

1. Stimulating the child's creative instinct
2. Developing judgment and discrimination
3. Integrating the art program with other subjects, such as history, geography, language, and nature
4. Developing courage on the part of the child to try difficult things
5. Appreciation of fine examples of painting and sculpture

I have always believed strongly in extracurricular work in our particular department, for it provides rich opportunity to give idle hands and active brains an excellent outlet. So we have had classes outside of school time for special work, whenever possible, for those interested. It might be sketching or modeling, or possibly some form of craft work; but whether in upper grades or high school, these classes have proved of great interest.

In this connection, in the high school we have worked up numerous marionette shows which have been given in the school hall. With the proceeds from these, we have established a fund from which we have given scholarships to especially deserving students who wish to go to art school.

Our present graduates attending the Massachusetts School of Art are all rated very highly by their instructors and by their fellow students. The presidents of the freshman and sophomore classes and the treasurer of the junior class are all Weymouth students, and the highest ranking student in the drawing and painting course in the junior year also is one of our graduates.

Miss Ray and Miss Freeman join me in a sincere feeling of the real privilege that it has been to work under Mr. Pearson for so long. We wish that it might continue as before, but we shall strive to help our new superintendent to keep on developing the system which he has built up so well. We wish him health and happiness in his retirement, and the contented mind of one who has done a difficult job exceedingly well.

MANUAL TRAINING

(Report of Mr. A. Edward Haviland,
Supervisor of Manual Training)

The classes in manual training for the year closing have been featured by high pupil interest throughout. This has been due primarily to a breaking away from the conventional manual training projects which have enjoyed such a long, unbroken vogue in many towns and cities. Another contributing factor has been the wide project selectivity offered to each pupil. As there are approximately four hundred and fifty boys in the manual training classes, it may readily be seen that such a broad program has greatly increased the teaching problem. However, the excellent results achieved have more than compensated for the added teaching burden.

The working time of a boy in manual training amounts to about forty hours per year, four to five hours of which are devoted to mechanical drawing. Thus, whatever is accomplished must, of necessity, be done in this limited time.

Following is a summary showing the total output for the year:

150 broom holders	12 bread boards
150 key racks	10 footstools
120 table lamps	6 prs. bookends
100 pen and pencil stands	6 bookcases
80 nail boxes	5 costumers
50 end tables	4 occasional tables
50 knife and fork boxes	2 taborets
15 magazine racks	

The splendid attitude of the boys in the classes and the co-operation of the teachers and principals are appreciated. To Mr. Pearson, I wish to extend my gratitude.

MUSIC

(Report of Mr. Vance W. Monroe, Supervisor of Music)

"Give us longer and better courses for music educators, so that these millions of little children may actually experience the loveliness of music in all its pristine glory, instead of coming to hate it because they are taught by dull and ignorant pedants and drillmasters."

The accumulation of important and interesting facts cannot be underestimated; but the pupils should be taught the meaning and significance of these facts. It is not sufficient for them to memorize the date of Pasteur's discovery of asepsis; it is more important for them to know that because of this discovery millions now live who might have died. Knowledge without feeling is useless. The emotional content gives life to a collection of otherwise uninteresting facts.

Our grades had their best year in 1939. The "Weymouth Grades Group" proved to be the outstanding chorus in the State Contest held at Belmont. They had a perfect score in the first high school division (Class C).

Mr. Pearson's kind invitation to the Mayflower School Festival Association was eagerly accepted, and on May 6, glee clubs from eleven towns gathered in our High School Auditorium.

Unfortunately, few visitors were able to attend this truly inspiring performance, since the hall was completely filled with singing groups. This is purely a festival, and no rating is given. Our group of 146 pupils from the Pond, Pratt, Hunt, and Washington Schools was highly praised.

Only through the perfect harmony and co-operation of the school committee, superintendent, teachers, and pupils can such work be done consistently. I hope that I may be allowed, in the not too distant future, to bring instrumental music up to this high level.

MUSIC

(Report of Mr. John M. Lyons, Assistant Supervisor of Music)

The various music classes in the high and elementary schools under my supervision have progressed during the past year. Music reading is being stressed in the grades so that the children will have a better knowledge of the theory of music upon entering the high school, where it is the purpose to acquaint them with as many as possible of well-known standard songs.

The annual Bicknell School operetta was presented on April 12 and 13 before audiences which completely filled the school hall each evening. This operetta, "Bon Voyage," was presented with the co-operation of Mr. Leo Madden, Mr. Preston DePlacido, Miss Josephine Caruso, and Miss Genevieve Perkins.

The operetta, "Chimes of Normandy," was presented by the High School Glee Club in February and was favorably received by large audiences. Miss Ernestine Canning, Miss Anita Petrucci, and Mr. James W. Calderwood gave valuable assistance in preparing this operetta.

The Gilbert and Sullivan operetta, "The Mikado," is now being rehearsed and will be presented on February 16 and 17. It is gratifying to note the interest in choral singing shown by more than two hundred pupils who tried out for the glee clubs this fall. The girls' glee clubs are scheduled to appear before the Monday Club on February 5. The second annual trip of the glee club to the "Pops" at Symphony Hall, in Boston, took place on Friday, June 9, and was enjoyed by more than eighty members.

At graduation, the senior class sang "Come to the Fair," "Dear Land of Home," and gave the first public presentation of the new Weymouth High School ode, "The Cross of Gray," accompanied by the High School Band. All these numbers and those of the soloists at graduation were recorded for posterity, as well as the addresses of the valedictorian and salutatorian and the overture by the band. The records are now on file at the high school and will be very interesting for future class reunions.

Instrumental classes in violin, trumpet, clarinet, saxophone, bass, baritone, and alto horns were organized at the Adams and Bicknell Schools with competent, experienced instructors. The plan is to form a band when these pupils become proficient upon their respective instruments. In September, an orchestra was formed of pupils from the Adams and Bicknell Schools. It now numbers fourteen pieces. This young orchestra and band will provide an added incentive for others to take lessons and will be a training ground for future members of the high school orchestra and band.

In closing, I wish to thank the superintendent, principals, and teachers for their co-operation.

SCHOOL GARDENS

(Report of Miss Sarah E. Brassill,
Supervisor of School Gardens and Clubs)

Early in 1939 there were 210 gardens reported for supervision. Of these, 141 were of a size and quality to be listed as club gardens. The owner of a club garden undertook to meet the requirements of the Extension Service of the Department of Agriculture. Many small gardens were good and profitable, although not quite up to that standard. All but three of these are being entered for next year.

All gardens were visited. Four hundred sixty-five visits were made during the growing season. In addition, 85 club meetings were held in the different school districts. The purpose of these meetings

was to hold the groups together in friendly rivalry, to discuss garden problems, and to encourage members to be helpful to one another.

As a preparation for gardening, classroom lessons are required in grades seven and eight. They are planned to follow the course of the seasons, and include garden planning in winter; seed selection, preparation of the ground in spring; care of the garden during the growing season; and harvesting in the fall. All pupils share these lessons. Owning and operating a garden is optional and voluntary. Club members range from high school seniors, who carry on after leaving the eighth grade, to fourth grade pupils, who understudy older brothers and sisters; from those who are trying for the first time, to those who are completing three, four, and five years of work.

Flowers and vegetables from these gardens were exhibited in competition at Horticultural Hall in Boston, at the Norfolk County Fair, and at Brockton, with gratifying results. Prize money and ribbons attest the quality of the products, and badges and state certificates record the amount of work done.

In addition to the garden work, I have had general supervision of all 4-H work, including poultry, food, home improvement, and conservation. In this I have had the much appreciated help of local leaders who take charge of organized groups in high and grade schools. Their expenditure of time and effort accounts for the success of the work.

SCHOOL NURSE

(Report of Miss Anna A. MacDavitt, School Nurse)

As your school nurse's work is cumulative in effect and depends largely upon the co-operation of those with whom she is associated, she is pleased to report that more progress has been made this year as a result of the fine spirit of helpfulness which always prevails in our schools.

In April 1939, a clinic for retarded children was conducted in the James Humphrey School by Dr. Mary Hammond, State Psychiatrist. Twenty-nine children were examined: twenty were new cases, and nine, re-examinations. It was recommended that twelve pupils be sent to the Junior Manual Arts Class for specialized training; the remainder were advised according to their needs.

It was in 1929 that this class was formed in the High School, with fourteen pupils and one teacher. There are at present forty-eight children and four teachers. During these ten years several changes have been made. Some of these children have been returned to their regular grade; and five boys have been sent to the Vocational School. The older boys are enjoying their well-equipped woodworking room, where they are making many useful and salable articles, such as tables, bookcases, and lamps. The older girls are learning to cook

and sew. So interested are these children, that many remain in the class long after the age limit.

The Rotary Club cared for several of our school children at their Annual Tonsil Adenoid Clinic held during the summer vacation.

The Lions' Club have chosen Dr. George A. Dillon, 41 Washington Street, Weymouth, to examine the children needing eye examinations. I appreciate the privilege of being allowed to submit our worthy cases to this organization for their consideration.

On December 5 and 6, 1939, a clinic for the purpose of immunization against diphtheria was begun, under the direction of the Board of Health.

The following is a report of the routine work of the year:

General inspections	4,725
Weighed and measured	1,902
Assisted doctors with examinations	508
Home visits	741
Dressings in school	193
Dressings at home	9
Sent to doctor	131
Taken home	105
Taken to hospital	19

Excluded for:

Colds and sore throats	172
Whooping cough	11
Ringworm	5
Impetigo	9
Pediculosis	10
Measles	17
Chicken pox	14
Mumps	37

Mr. Pearson, I fully appreciate your friendly co-operation at all times. I wish to thank you, your principals, teachers, and secretaries for all the consideration I have received.

SEWING

(Report of Miss Harriet S. Berry, Supervisor of Sewing)

This course consists mainly in teaching the girls the fundamentals of everyday sewing and repairing. It teaches them the great part that accuracy, carefulness, and neatness play in achieving a perfect finished product.

The seventh grade girls, who are beginners in sewing, are taught all the stitches necessary for plain sewing by making, entirely by hand, their own sewing bags, which they continue to use throughout their years of sewing. The girls are then taught the use and care of the sewing machine. As soon as a child has mastered the machine, she makes either a slip or a pair of pajamas. After the completion of her slip or pajamas, the child learns the methods of inserting sleeves and

of applying simple decorations or trimmings by making either a blouse or house coat.

The eighth grade girls are given a complete review and taught to use and alter a commercial pattern. The first article the girls make is a winter skirt. At the completion of the skirt, the girls make a blouse, house coat, or simple dress, and then a more intricate dress.

At Christmas time a few lessons are devoted to the making of Christmas gifts. This year the girls of both grades made neckties, aprons, peasant belts, tablecloths, towels, and all types of embroidery. All the spare time is devoted to repairing, altering, patching, and darning.

A sewing exhibition was held in the spring, at which time the girls of both the seventh and eighth grades exhibited the articles that they had made during the year.

In closing this report, I wish to thank the parents, friends, and the entire school department for their interest and co-operation.

THE CROSS OF GRAY

Dedicated to the late Frederick W. Hilton

Mid Weymouth High's soft lawns and pines
A cross of fairest gray
Stands sentry o'er the youthful lines
Which pass him day by day.
He teaches in his gentle way
That spirit cannot die!
"Pro Patria!" we hear him say,
"Means love for Weymouth High!"
Staunch stands the watch of Weymouth High

And gives for our brave dead
These simple passwords to the hill
Where Weymouth's men are bred.
We love thee! Alma Mater!
Oh let the years roll by!
Our song we raise! Loud rings the praise!
Of grand old Weymouth High!

†Nash's Corner Station: 2.30 to 6 and 7 to 8 P. M. Tuesday.

The Library and the Branches are not open Sundays, legal holidays, nor the 17th of June.

The Library is for the use of all residents of Weymouth. Temporary residents are entitled to the same privileges as permanent residents.

Each card issued to an adult entitles the holder to one book of recent fiction (a book published within the last year), one current periodical, and any reasonable number of other books.

Children under Senior High School age are entitled to a card if the application is signed by a parent or guardian. Cards issued to children entitle the holders to two books, only one of which may be fiction.

All books from the circulating department, except the new fiction, may be kept for 14 days. At the request of the borrower any book not in demand will be charged for one month, subject to recall after two weeks if requested by other borrowers. Fiction published within the last calendar year, and recent numbers of magazines are limited to seven days with no renewal privilege.

The vacation privilege allows a borrower to take books which are not recent publications for an extended time.

A book cannot be transferred from one card to another, but any 14-day book may be renewed at the library, by mail or by telephone (*), unless another borrower has asked to have the book reserved. The date due, the author and title of the book, and the borrower's number should be stated when the request for renewal is made.

Any book will be reserved at the request of a borrower, who will be notified as soon as the book is available. A charge of one cent is made for this service.

A fine of two cents a day will be incurred for each day's detention of a book after it is due. When a book is sent for by the librarian it will be at the expense of the borrower.

For the convenience of residents living in different parts of the town books are exchanged through the stations as follows:

SIXTY-FIRST ANNUAL REPORT OF THE TUFTS LIBRARY

**1939
THE
BUSIEST
YEAR
IN THE
HISTORY
OF THE
TUFTS
LIBRARY**

The Trustees of the Tufts Library herewith submit to the Town of Weymouth their report for the year 1939. This is the sixty-first annual report of the Library.

In the year that has just closed the Tufts Library has handled a larger volume of business than in any previous year. Its total circulation of books, 202,172 volumes, is a gain of 3.9% over the previous year. Of this book circulation 45% was from the Main Library, 17% was from the North Weymouth Branch, 28% from the East Weymouth Branch, and 10% through the Deposit and Delivery Stations in the sections of the town that are distant from the library and its branches.

**AS
SHOWN
IN
BOOK
CIRCULATION**

While our total gain for the year was just under 4%, our gain in adult reading of non-fiction was over 8%, showing an increasing demand for the more thoughtful and constructive type of reading. This aspect of the growth of the library becomes more apparent if we consider it over a longer period of time. In the past ten years the circulation of books from the entire library system in recreational reading for adults has gained 34%, while the gain in the reading of informational books of biography, travel, history, art, and social conditions has been 123%. The circulation of books to children has increased 52% in the ten year period, and the number of persons using the library has increased 69.6%.

**IN
GROWTH
OF
CONSTRUCTIVE
READING**

The ten year period which these figures cover, is a period of economic and social upheaval throughout the world. During these years thoughtful people have read and questioned more deeply than ever before, and the circulation figures of the Tufts Library reflect their interests and needs. Never before has the library, with its resources of knowledge, been so essential a part of the educational life of the community.

**IN
GROWTH
THROUGH
THE
BRANCHES
AND
DELIVERY
AND
DEPOSIT
STATIONS**

In response to popular demand, the library has increased its hours of service at the Branches. The North Weymouth Branch is now open from 2 to 6 and 7 to 8 P. M., giving an additional hour of service in the afternoon; and the East Weymouth Branch is open from 2 to 8 P. M. with no interruption for a supper hour. Each of these branches has shown a gain in circulation over the previous year: North Weymouth Branch of 7%, and East Weymouth Branch of 8%.

The most outstanding gain has come from the Deposit and Delivery Stations which serve the people who live at a distance from other library facilities. In one year the gain in these reached 36.7%, in spite of the fact that the trustees were obliged to close the Deposit Station at Nash's Corner because no appropriation was available for its continuance. The rapid growth of these stations is evidence of the need of this more

equitable distribution of library service throughout the town, and the trustees of the Tufts Library would be glad to see it restored to the people of Nash's Corner.

IN WORK WITH BOYS AND GIRLS

The work with boys and girls has progressed steadily. Directed reading centered about the interest in the World's Fairs at San Francisco and New York, and gave opportunity for a wide variety of reading interests to be developed. Story hours have been held in the Children's Room and also in the East Weymouth Branch.

As always the work of the library with the children is coordinated with the schools, and during 1939 eleven elementary schools had deposits of library books. 1,287 books were sent from the Children's Room in classroom deposits to the schools and these books circulated 9,738 times. The library awarded 606 certificates to children who read and reported on at least five books from an approved list, and 77 honor certificates to boys and girls who reported on twenty books.

LIBRARY SPONSORS STORY HOURS UNDER THE TUFTS LECTURE FUND

This year the trustees of the Tufts Library have sponsored a series of story hours under the Tufts Lecture Fund in cooperation with the School Department. Mr. and Mrs. John J. Cronan and Mrs. Margaret Powers of the Boston Public Library system were secured as story tellers, and they have visited each of the elementary schools, giving two story hours in each school. The stories are taken from the worth while books for children and are proving an inspiration to better reading. Books come alive to the boys and girls through such interpretations and after each story hour there is eager demand for these books from the library. Not a single copy of the Iliad was left on the library shelves after Mrs. Cronan's telling of the story made it as vital as any modern tale of adventure. This grant from the Tufts Lecture Fund is reaching the entire juvenile population of the town from the third through the eighth grades, and in its interpretation of fine literature for young readers it is truly in accord with the spirit of the bequest of the Tufts family.

The Children's Librarian has made class room visits and given short talks to the boys and girls in the following schools:

VISITS TO SCHOOLS

Junior High School Annex
Adams School — Grades 4 & 5
Bicknell School — Grades 3 & 4
Humphrey School — Grade 5
Hunt School — Grades 4 & 5
Jefferson School — Grades 4 & 5
Nevin School — Grades 3, 4, 5, 6, 7, 8
Pond School — Grades 4, 5, 6, 7, 8
Shaw School — Grades 7 & 8
Immaculate Conception School — Grade 6

**COMMUNITY
AND
PROFESSIONAL
PARTICIPATION**

The Children's Librarian and the Librarian of the East Weymouth Branch have each spoken on children's reading before groups of parents and teachers in the town, and the librarian and several of the assistants have attended and participated in library conferences.

Again this year the library has cooperated with the school department by welcoming one of the seniors in the business course at the High School for a week of practice work.

**LIBRARY
MAINTENANCE**

A few repairs have been necessary on the library building, new chairs were purchased for the North Weymouth Branch, and a little additional shelving was installed at the East Weymouth Branch. The principle item of maintenance for the year was the installation of an oil burner in the furnace at the main library. This is giving a much cleaner and more even heat than was possible with the use of coal.

**A
BEQUEST
TO THE
EAST
WEYMOUTH
BRANCH**

During the year the library received notice that a bequest of \$700.00 had been left to the East Weymouth Branch of the Tufts Library by Alida M. Denton of Weymouth in memory of her grandfather, Zechariah L. Bicknell, who was the first president of the Board of Trustees of the Tufts Library. The income from this bequest, when it shall become available, will be used for the purchase of books for the East Weymouth Branch and will be greatly appreciated.

**GIFTS
OF
BOOKS**

The library has also been the recipient of many gifts of books during 1939. These are accepted with great appreciation and the trustees wish to express their thanks to the donors. Further acknowledgement is made in a list appended to this report.

**LOANS
OF
EXHIBITS**

On another page is listed the exhibits which have been generously loaned during the year, and for which the trustees extend their thanks. Exhibits are one means of bringing new interests to the children and correlating these interests with books.

To those friends of the library who have shared with us the beauty of their gardens we are most grateful. Flowers in the library are appreciated both by the library staff and by the borrowers.

**IN
MEMORIAM**

In March 1939, the Rev. John B. Holland, senior member of the Board of Trustees, left us for the larger life beyond. He had been a member of the Board of Trustees of the Tufts Library for forty-one years. Father Holland has his own place in the hearts of all who knew his generous, kindly, beneficent spirit. His interest in and service to the library has been constant. His life radiated good will and unselfish service, and his memory will live in the hearts of the people. It is with sorrow that we record his passing.

**THE
LIBRARY
IN A
WAR
TORN
WORLD**

In 1939 the clouds of another war have spread over half the world. There are lands where people may not read what they choose, where they may not seek for truth, but must accept only what is given them. This is a "blackout" in the realm of the spirit, and we in America, who hold precious our heritage of freedom, must keep light and open the road for all seekers of truth. The libraries of our country, with their treasures of stored knowledge, may be beacon lights in the confusion and chaos of this "blackout" of freedom in thinking. It is our task and our purpose to make available to our own people the books that may aid them to clearer thinking and freer, fuller living.

Respectfully submitted,

CLARANCE P. WHITTLE,
President.

By order and in behalf
of the Trustees.

REPORT OF COMMITTEE ON TOWN HALL HEATING

The committee appointed to make recommendations for correcting the heating system in the Town Hall hereby submits its report. Weymouth heating contractors were invited to submit bids for the work proposed. The contract was awarded to Charles Crehan for the additional radiation.

Radiation was added in the offices of the Town Clerk and Town Accountant by the installation in each room of a recirculating heating unit. A radiator was installed in the Selectmen's room and one in the Appropriation Committee room. Steam traps were inspected and repaired.

The committee feels that the additional radiation will provide ample heat for the most severe weather.

REPORT OF TOWN ENGINEER

To the Honorable Board of Selectmen of the Town of Weymouth,
Gentlemen:-

My thirty-third annual report is submitted herewith.

Continuing the work of previous years at the Registry of Deeds, Registry of Probate, and Land Court, and including surveys, etc. the 65 Assessors sheets are being revised and corrected to Jan. 1, 1940; also several tracings due to wear are being replaced.

During the past year the Assessors adopted a block system of assessment and the town was divided into approximately 648 blocks, and the different lots or parcels of land in each block numbered.

In 1939 there were added to the maps 90 new dwellings, 182 other new buildings; 229 additions or outside alterations; and 135 buildings were removed. The only municipal building was an addition to the Nevin School.

This was an increase in building of about 19% over 1938 and approximately 14% over 1937. The removals were practically the same as in 1938.

The legal documents copied at the Registry of Deeds during 1939 total 1119, and those copied at the Land Court number 123.

While the above shows that 1242 documents were recorded, there are undoubtedly others, and also plans which should have been placed on record and I would again urge the importance of promptly recording any legal document which affects the ownership of property. The recording of plans is especially valuable as the shape and size of the land is thus apparent to anyone.

Stone bounds were set on various streets in the town but this work should be materially increased so that the lines of the streets shall not become indefinite or lost.

Major items of surveying or engineering in 1939 are listed as follows:- Many street lines and some street grades were given for owners of abutting

land; surveys made and lines and grades for drains given on many streets; surveys made, profiles taken, and lines and grades given for curb and sidewalk construction; lines and grades given for walls built; surveying done, plans made, staking done, or grades given, at the Bicknell School, and at the Pratt School, at Weston Park, and Beals Park, at the Stella L. Tirrell playground, at Webb Park, Great Hill Park, and at Legion Field; staking, grades, measurements and estimates at the Nevin School; plans of takings made; survey, staking and making of an easement plan for drainage purposes; and various other routine or incidental work.

I extend my thanks to your Board, to all other town officials, and to many citizens for the continuance of the courtesy which has always been shown throughout the town to me and to my assistants.

Respectfully submitted,

RUSSELL H. WHITING,
Civil Engineer.

January 22, 1940.

To the Honorable Board of Selectmen:

As Agent of the Board of Public Welfare I respectfully submit the following report for the year ending December 31, 1939.

It is with a deep sense of gratification that this department for the second consecutive year shows a decided decrease in the money expended for Temporary Relief, a reduction of approximately \$19,000 over the 1938 expenditure. In 1938, the first year under the new set up (the consolidation

of the three departments under one head), there was a decrease of approximately \$27,000 over the previous year. Thus, in our second year, we find that welfare has in two years decreased \$47,000.

The saving this year (1939) was accomplished despite the fact that at times the number of Weymouth people employed on WPA was about one half the number of Weymouth people employed in 1938, necessitating and resulting in an increase in our rolls.

I feel that this low expenditure, the lowest since 1932, is due to several factors, the most important of which is the close cooperation between our department and the Board of Public Welfare.

In closing I wish to thank my fellow workers in the department for their loyalty and cooperation without which it would have been exceedingly difficult, if not impossible, to accomplish our common aim.

Also, may I express my deepest gratitude to your honorable Board for their cooperative spirit and favors shown by you to my department.

THOMAS P. DELAHUNT, *Agent,*
Board of Public Welfare.

1939

ANNUAL REPORT
OF THE
WATER DEPARTMENT

JAMES H. HUNTER
EDITOR

REPORT OF WATER COMMISSIONERS

The Board organized with the election of Ralph P. Burrell as Chairman and George E. Curtin, Clerk.

A further reduction in water rates was made. Effective on all meter readings after April 1, 1939, the rate per 100 cubic feet was established at 25 cents, with a minimum charge of \$1.50 per quarter.

Sydney C. Beane was appointed Superintendent, assuming the duties of that position July 1, 1939.

On account of the failure of the town to appropriate additional funds for the taking of land bordering the pond, but one small parcel was acquired during the year.

After unsuccessful efforts to adjust with Thomas H. Hannaford the matter of payment for work done outside his contract in building the filtration plant, and on the advice of the Town Counsel, the suit was defended before George W. Arbuckle, who was appointed by the court to sit as auditor. A verdict of \$12,337.37 plus interest was awarded the plaintiff on his claim of \$16,567.97 plus interest.

Work at the filtration plant and water supply area was continued, the rip-rap wall at the intake completed, clearing of the water shed of brush resumed and some low areas filled under the W. P. A. program.

REPORT OF THE TOWN ACCOUNTANT

East Weymouth, Mass.

January 23, 1940

To the Board of Water Commissioners:

Gentlemen:

Herewith is submitted the thirty-eighth annual report of the Accounting Department which sets forth the financial transactions of the Water Department for the year ending December 31, 1939.

A verification of the outstanding accounts was made at intervals during the year and as no question was raised relative to the correctness of any item I am satisfied that the records are accurate. All bank balances have been properly verified every month of the year.

The Water Surplus as of December 31, 1939 is \$68,760.36, a reduction of \$41,459.20 from that of the year before. It must be remembered, however, that the sum of \$60,000 was used by vote of the Town to reduce the tax levy of 1939. The sum of \$28,540.80 has been credited to Surplus Revenue representing the 1939 unexpended appropriation balances of \$17,052.15 together with \$11,488.65, the excess of actual receipts over the estimate used when the budget was prepared.

The Net Debt has been reduced to \$102,500. by the payment during the current year of \$13,500.

Placing of liens on property for protection of the assets of the department was continued in 1939. This assures the department against loss, and in my opinion the accounts receivable represent a sum which will be very nearly collected in full.

A decision relative to the liability of the department for the construction of the Filtration Plant has been filed and will necessitate the appropriation of funds to liquidate the award made.

I appreciate the co-operative efforts of your department.

Respectfully yours,

EMERSON R. DIZER,
Town Accountant.

Respectfully submitted,

GEORGE E. CURTIN,
Treasurer of the Water Department.

Weymouth, Mass.,

January 23, 1940

I have examined the accounts of George E. Curtin, Treasurer and Collector of the Weymouth Water Department, and find them correct. The records of the Collector's Department have been checked with the Treasurer at least once each month during the year, and I am satisfied that both reports are correct.

EMERSON R. DIZER,
Town Accountant.

REPORT OF THE COMMITTEE FOR THE OBSERVANCE OF MEMORIAL DAY

To the Citizens of the Town of Weymouth:

At the Annual Town Meeting held on March 6th, 1939, it was voted under Article 1, Item 34, that a committee of nine be appointed by the Moderator from the various Veteran and Heredity organizations, in accordance with the provisions of General Laws (Tercentenary Edition) Chapter 40, Section 5, Clause 12 as amended.

The following committee was appointed:

Henry B. Vogel, Commander Post No. 58, Grand Army of the Republic. (Honorary Chairman).

John R. Clifford, Commander Post No. 1399, Veterans of Foreign Wars. (Chairman).

Arthur L. Tilton, S. V. Com. Post No. 1399, Veterans of Foreign Wars.

Warren F. Fowler, Commander, Post No. 79, American Legion.

Everett T. Gardner, S. V. Commander, Post No. 79, American Legion.

Louis Cipullo, Commander, Chapter No. 36, Disabled War Veterans.

Charles H. Burkett, Chapter No. 36, Disabled War Veterans.

Ernest A. Smith, Commander, Camp No. 36, Sons of Union Veterans.

Mrs. Harriet Fern, President, Tent No. 32, Daughters of U. Veterans.

The first meeting was held at the Town Hall, East Weymouth, on Wednesday, May 3rd, 1939. Ernest A. Smith, Commander of Camp No. 36, Sons of Union Veterans of C. W., was elected as Secretary of the Committee. Several additional meetings were held during the month of May at which your committee purchased supplies and perfected plans for the proper observance of Memorial Day. Because of the late date the members received their appointment, it was found difficult to get in touch with people from whom it might be advisable to secure bids on some of the supplies, but this was accomplished to the best of our ability in the short time allowed.

It was voted that the Moderator be requested to appoint future committees much earlier than in the past.

There seems to have been a general opinion of the members of this committee, that the time allowed to the Veterans for visitation of Schools, is too limited to allow the members of the different organizations interested, to secure representatives to visit the schools, in a two hour, one day allowance. In many of the Schools the pupils have been disappointed in not receiving a visit from the Veteran organizations. We hope that the School authorities will find a way to overcome that condition.

The graves of Veterans of all wars were decorated with potted plants or wreath. Flags were placed on each grave the week before Memorial Day, and renewed again just before Armistice Day. Public Squares and Monuments were decorated with wreaths and flags.

On Memorial Day the Veteran and Heredity organizations, with the Boy and Girl Scouts, assembled at Hurley Square (Thomas Corner) North Weymouth. Commander John R. Clifford acting as Chief Marshall, formed the parade. The American Legion Band and the Canadian Legion Band furnished the music, assisted by the Drum Corps of the Boy Scouts and the Fife and Drum Corps of the Sacred Heart Church. All Cemeteries were visited as usual and the parade was reviewed by the Honorary Chief Marshall, Commander Henry B. Vogel, from his residence on Cedar St., East Weymouth.

To all who assisted in making this Memorial Occasion a success your committee extend their sincere thanks.

Respectfully Submitted,

ERNEST A. SMITH,
Secretary Memorial Day Committee.

REPORT OF THE TOWN ACCOUNTANT

East Weymouth, Mass.

January 30, 1940

To the Board of Selectmen:

Gentlemen:

Herewith is submitted the thirty-eighth annual report of the Accounting Department, my twentieth as Town Accountant. Set forth herein are the principal items relative to the financial affairs of the Town of Weymouth which I believe gives as much information as is necessary in a report for publication. Should more detailed information be desired it is available in the accounting office at any time where every citizen should feel free to call.

The accounts of town officers have been examined frequently, cash balances verified regularly and the cash and securities of the Town found as reported.

The Surplus Revenue as of December 31, 1939 is \$134,655.88 which represents a gain of \$31,985.68 over that of a year ago. I referred in my last report to the tax situation, and as was expected the rate was increased by \$1.00, occasioned primarily by the State Tax deficit of the previous year. The outlook for 1940 appears more favorable and without any material increase in Town appropriations over those of last year it would seem that a reduction in the rate for the current year is attainable.

The Net Debt of \$441,000 shows a reduction from that of last year, notwithstanding an issue of \$60,000 to provide for the construction of the Nevin School Addition.

The taxation of municipal salaries by the Federal Government necessitated the compilation of information which this office was able to prepare, although considerable time was required. The maintenance of the Contributory Retirement System also requires much time of the accounting office.

A great improvement is shown in the Tax Title account as the net reduction for the year was \$19,765.24. The Town now has possession of property, taken by foreclosure of title, representing a cost of \$6,820 38. The actual value of this property probably substantially exceeds the cost and should be liquidated in order that the property may once more become productive of revenue.

The accomplishments of this office, in a large measure, depend upon the co-operation of other officials and officers for which I am grateful.

Respectfully yours,

EMERSON R. DIZER,
Town Accountant.

REPORT OF THE PLANNING BOARD

To the Town of Weymouth:

The Planning Board has held twelve meetings during the year just completed. At each of the meetings, which were with very few exceptions attended by all members, many suggestions were offered for the improvement and betterment of the Town.

Among the major problems discussed during the year was the matter of zoning. Working hand in hand with the Zoning Committee established by the Town Meeting of a year ago, the Planning Board members were present at each one of the open meetings held for the purpose of informing the residents of Weymouth of the purposes of the Act. After these hearings were held and we had discussed the matter among ourselves, we went on record as favoring the zoning law as it was finally set forth and stated our position on the floor of the Town Meeting last March.

The problem of parking in various sections of the Town commanded our attention for a considerable period of the year. In Weymouth Landing where the need seems to be the greatest and the demand of the merchants is more solidified and pronounced, the Board contacted the Braintree Planning group in an endeavor to find whether or not a co-operative measure could be drawn up so as to provide the facilities. We held two meetings with our neighbors and had prepared sketches of the parking area in the respective towns. As a result of our survey, we have recommended that a committee be established to look in to the matter of completing the purchase of the land necessary to provide public parking space.

Along the same lines, the Planning Board went in to the matter of a parking area at the so-called Bicknell Meadow just off Broad Street, East Weymouth, and after having preliminary surveys made, has recommended to the coming Town Meeting its use as a parking space for that section of the Town.

Among the achievements for the year just passed, the group has to report that its independent traffic survey of Independence Square was turned over to the Board of Selectmen who in turn used it to fortify their demand for the traffic lights that have been recently installed there. This particular vexatious problem had been stirring the residents of South Weymouth for the last three or four years. It is also pleasant to note that the Nevins School addition, including a gymnasium, was constructed recently. This is another addition to the Town that we have strongly urged.

The Planning Board in conclusion wishes to thank all those who have co-operated with it on its various activities and sincerely hopes that the coming year will be just as co-operative. We do not at present make any suggestions for the further development of the Town for that would be repeating the suggestions that we have made in our recent annual reports. For those who wish to see what is at present uppermost in our minds, we respectfully refer you to those documents of the last two or three years.

REPORT OF THE W. P. A. COMMITTEE

The WPA Committee for the year 1939 herewith reports on its activities.

During the year work was done for the Assessors, Park Department, School Department, Water Department, Welfare Department, and the Board of Selectmen. The various departments, specifically, did work in rebuilding parks, playgrounds and streets, painting schools and Water Department appliances, locating new and relocating old drains, installing sidewalks and curbings, widening and resurfacing streets, constructing new streets, erecting walls, setting rip-rap on the reservoir, rehabilitating trees, eliminating gypsy moth, beautifying the road side and engaging in various white collar projects, such as Assessors' Records, Town Clerk's Records, binding school books, transporting men to the various jobs and helping support Federal projects such as musicians, commodities and NYA.

Of the newer projects in which the Town has become involved, the NYA is perhaps the one that is most intriguing and productive. Boys and girls of the ages of 18 to 25 are being employed throughout the Town in an effort to provide them with experience necessary to obtain private employment. To this end, all the girls that have marked qualifications are doing secretarial work in its various phases in the Town departments, while the boys are basically manufacturing concrete products for use in the Town. These products include park benches, park posts, school fence posts, throat stones and curbing. When the opportunity presents itself, some of these boys are given an opportunity to work with various skilled mechanics employed by the Town. It is to be noted that the emphasis is now being placed on preparing these young men and women for the future, whereas in the past it had been the desire of the officials to assist the mothers and fathers in a financial way by obtaining work for the other members of the family. The transfer of emphasis is further accentuated by the fact that the NYA is no longer affiliated with the WPA, but is now a separate Federal function.

The Committee is pleased to report that insofar as the internal management is concerned, the direct overhead expenses have been decreased for the fourth consecutive year by the installation of a new office procedure. As a result of this new system, the WPA Department now has its own records, independent of the records of any other department in the Town. It also has a duplicate set of bills, and by a system of cross-indexing, the WPA records may be easily obtained on any phase of its activity. The placing of purchases in the hands of one person has resulted in a more wide allocation to the Committee's appropriation.

In view of the new endeavors of the Committee, it would seem that there is now a congestion in the Town Hall by reason of the employment of so many of the younger people. To this extent, it is now suggested that the coming year will see the following changes made or at least attempted.

1. The consolidation of all WPA activities at Weymouth Landing.
2. The elimination, as far as possible, of all WPA employees from the Town Hall.
3. The production of work that is more beneficial to the Town than has been the custom.

During the past year your Committee has endeavored to clean up all projects referred to it by the last five or six Town Meetings, and as well to clean up all work that has been hanging fire from past projects. It is pleased to report that this goal has been almost 100% achieved. With the coming year, the WPA Committee will have cleaned up everything it has started and everything that has been referred to it since 1933. It is interesting to note in passing that nearly all activities in the Park Department are completed, that the Bicknell School development will be completed by April, and that the Town will have in the latter project one of the finest playgrounds

on the South Shore; that Stella Tirrell Playground will be completed this year, although a small project still has to be prepared for the southwest section. With the passing of the year 1939, the recreational facilities of the Town of Weymouth will be left in a condition that far surpasses any period in the past.

For the coming year, we propose to spend about one-fourth of our appropriation on sidewalks and curbing. With the assistance of the NYA, which is making precast concrete curbing, we should install at least 50% more than in any previous year. Another activity that will engage our attention will be the composition of a playground in East Weymouth at the Humphrey School, along with the development of the athletic field opposite the High School for the girls. The usual number of white collar projects will be worked and as well, the final development of our park system.

In determining the sum of money that will be necessary for the year 1940, there are two factors of prime consideration and of utmost importance, and each of them demand that the appropriation be larger than in past years. The first of these is that the men are now working 45% more time on the projects than they were during the first half of the year. If, therefore, the men are to be kept busy, the money necessary for materials and supplies must be increased in proportion to the extra number of hours these men are now working. The second factor to be considered is that the Government is now demanding that the communities pay 25% of the total cost of each project. In view of the fact that our average has not approximated a 25% contribution in any one of the last 4 years, it is to be noted that even if we decreased the number of hours per worker, we must have more money to meet the deficit which is apparent from the study of past figures. While the following is not of undue importance, at the same time it must be considered as a potentially strong third reason why we need a larger appropriation: this is the usual Government attitude during election years of putting a great number of men to work, and it is to be remarked and noted that during the last 3 months, we have increased the rolls in the Town of Weymouth by 33%.

While it may appear that this report is, as it stands, sufficient to cover the demands of any Town Meeting Member, at the same time because of the changing conditions and the exacting demands of the Government, about the only records that we have in our possession are current records. The difficulty with this is that in endeavoring to determine what has been done in the past as a guide for the future, we do not have material at hand on which we can base an estimate; and so appended to this report is a series of tables or summaries for the years 1936, 1937, 1938 and 1939 which will be helpful to those who succeed us, should the occasion arise for substantiation of proposed figures or appropriations.

The Committee is grateful and mindful of the co-operation of the various Town bodies and sincerely hopes that 1940 will be as deeply marked with continued mutual aid as 1939 passed out with.

REPORT OF THE CUSTODIAN OF VETERANS' GRAVES

February 12, 1940

To the Honorable Board of Selectmen,
Gentlemen:

A report of the Custodian of Veterans' Graves for 1939.

The appropriation has been expended in the same manner as in previous years. An increase of two makes a total of 378 graves in 325 different lots cared for at Town expense. The Veterans of Foreign Wars care for 9 in the older cemeteries, 24 are under the immediate supervision of the custodian, 292 are cared for by agreement with the superintendent of the larger cemeteries.

The courtesy, help and co-operation received from the various cemetery officials is noted again with appreciation.

Respectfully submitted,

KARL O'NEIL,
Custodian of Veterans' Graves

REPORT OF THE BURIAL AGENT

February 12, 1940.

To the Honorable Board of Selectmen,
Gentlemen:

A report of the Burial Agent for 1939.

During the year three burials were made under the statutes governing the burial of indigent soldiers and sailors.

Respectfully submitted,

KARL O'NEIL,
Burial Agent.

REPORT OF WEYMOUTH MUNICIPAL AIRPORT COMMITTEE

Mr. Moderator:

We, the Committee appointed by you, respectfully submit our report to this own Meeting: re — to study into the advisability of establishing a Municipal Airport in the Town of Weymouth.

The first problem that confronted the Committee was the choice of a site for a proposed airport. After long deliberation, a site was chosen in what is known as the Old City section of South Weymouth. This site was chosen because of its size which would allow the construction of an airport comparable to any in the country, its accessibility and its favorable terrain. The Old Swamp site, also in South Weymouth, was considered as regards to its appropriateness, but was abandoned in favor of the other.

The Committee was aided in its survey by the Massachusetts State Aviation Commission. This Commission, through their engineering section, photographed the proposed site from a Massachusetts National Guard airplane from an altitude of twenty (20) thousand feet. Mr. Crocker Snow, head of the State Aviation Commission, personally inspected the land and expressed himself as being very much in favor of it as a site for a proposed airport, especially because of its suitability as an alternate field for various airlines. With the aid of Mr. Snow, the airport site was surveyed and the blue prints from the topographical map compiled, were presented to the Committee.

With the assistance of Mr. Snow, a tentative plan of the airport was made which included runways 5500 to 6500 feet long and 600 feet wide. These runways would border on Union Street, Main Street, the Rockland-Abington line, and the Old Colony Railroad.

At this point it was necessary to determine the ownership of the various plots of land over which the runways of the proposed airport would be constructed. This survey was made with the assistance of Mr. Russell H. Whiting, Civil Engineer. It was deemed impossible by the Committee to proceed further with the survey, by which the cost of this land could be determined, because of the lack of necessary funds.

Mr. Thomas J. Kelly, Superintendent of Streets for the Town of Weymouth, after studying the airport plans, quoted a figure of \$120,000.00 as the approximate cost of constructing three runways 2500 by 300 feet. The Committee ascertained through Captain Fletcher Ingals, head of the Government's Civil Aeronautics Authority's New England Airport Development Section, that the C. A. A. had approved the Weymouth airport site. This approval would mean that the United States Government, through the W. P. A., would pay the cost of constructing this airport up to seventy-five percent.

A design for the proposed airport, showing runways, hangars and manufacturing buildings, was made by Wes Williams, a member of the Committee.

One airplane designer and manufacturer has already expressed his willingness to construct an airplane manufacturing plant on the site of the proposed airport.

Letters were sent by the Committee to various cities and towns having municipally owned airports asking them whether their particular airports had proved to be assets. The majority of the replies received were favorable. Those that were not favorable, expressed the belief that although their airports were not assets at this time, financially speaking, they believed that they would be tremendous assets in the near future.

The Committee lists some of the sources of income from a Municipally owned airport as follows:

Income derived from Scheduled Airline landing rights.
Office space lease and income from concessions.

We, the Committee recommend that the Town Meeting of the current year raise and appropriate the sum of \$500 for a survey to be made to determine the cost of the land needed for a Weymouth Municipal Airport.

Respectfully submitted,

RONALD L. WHITE, *Chairman*

REPORT OF MOTH SUPERINTENDENT

To the Board of Selectmen and Citizens of Weymouth:

Weymouth ranks second best town in the Norfolk and Bristol County Gypsy Moth Area in its control of gypsy moth. This is a good showing, as we have much deep woodland on the east, south and west sides of the town which makes the finest breeding place for these insect pests.

The Elm Leaf Beetle was the most serious insect pest during the year 1939 and only by working longer hours and starting out before daylight to get ahead of street traffic, were we able to keep the beetles in check. Undoubtedly, this caused some inconvenience to sleepers, but usually it was only once that they were awakened as we would be in a different section another day. It is during these early hours that we can accomplish the most work as there is little or no interference with passing motor vehicles.

Canker worms, satin moths, aphids etc., were pretty well under control, at least there was no widespread injury that was noticeable as in other years.

For the fourth consecutive year the 4-H Club Tent Caterpillar Campaign has done a very creditable piece of work in collecting Tent caterpillar egg clusters. These egg clusters can be easily seen on wild cherry, apple, and peach trees during the winter months, and these 4-H Club boys and girls go out hiking and picnicing to gather them up. One little fellow in the vicinity of Green Street, North Weymouth asked me with tears in his eyes, where he could find some of these clusters. "Last year there were lots of them on Green Street and this year I can't find but only a few." True enough! Each year they *are* harder to find, and for two years this Department has not had to combat them at all.

Yours is true Community Service, boys and girls, and on behalf of the Town's people I want to thank you.

V. LESLIE HEBERT,
Moth Superintendent.

REPORT OF THE TREE WARDEN

To the Board of Selectmen and Citizens of Weymouth:

The year 1939 was the most hectic year since I have been serving you as Tree Warden. The trees felled by the 1938 hurricane have been removed, but many hundreds of other trees have been called to my attention as being dangerous or in a very serious condition. I have examined them all and have found, in nearly every case, that immediate attention should be given to these trees.

Some trees have been taken care of, others have been made temporarily safe. These and the remaining numbers will be taken care of as far as our appropriation this year will allow.

My problem is a big one — to keep twenty thousand people happy by keeping twelve to fifteen thousand trees in good healthy condition, two thirds of which trees call for an expenditure of five to twenty-five dollars per tree, on an appropriation of little over two thousand dollars, out of which must come expenses for labor, equipment, upkeep of nursery, truck hire, fertilizer and other sundry items. On our present annual allowance we are *"getting nowhere fast"*.

When I first took over this position, I fully expected to do a great deal for our shade trees, and the people of Weymouth expected the same. Year after year, I have tried to procure sufficient money to take care of the needs of this Department. So far I have been only partially successful. Our Tree Department appropriation should exceed that of the Moth Department; instead it is a little over one third of the amount. If we could do our trimming, cavity work, fertilizing, bracing and other tree surgical operations with a sweep of a nozzle as we can control insects, it would be possible to take care of several thousand trees each year, and in a few years cover the Town. Unfortunately, each mile of road requires approximately four hundred eighty man hours to restore the average of one hundred fifty trees per mile of roadway.

Immediately after January first 1939, I drew up a W. P. A. Project for Tree Rehabilitation. This project was approved and we were so notified. Due to some unknown reasons this project was not started and nearly all the work which we had hoped to accomplish had to be carried over into 1940.

At present writing, I am happy to say that this project has now been started, and will take care of all necessary trimming, cabling and bracing, tree planting, tree and stump removal and roadside improvement on Commercial Street, Broad Street, and Pleasant Street. When these streets are completed other important streets will be taken. However, W. P. A., while it is helpful cannot take the place of an organized Tree Department. Since W. P. A. cannot work on private property and much of the work of this Department is on trees located on private property, overhanging the highways, it is absolutely necessary that we maintain our own skilled tree crew.

Much good work was done in the Town following the Hurricane by the U. S. Forestry Service with W. P. A. labor in removing serious fire hazards. As usual, money runs out before these worthwhile jobs are completed

We set out one hundred trees last Spring which is a good start. This Spring we plan to continue this work.

I have just two requests to make: First — that we be given a more generous appropriation, so that we may do a really good job. Secondly — that a small air compressor be purchased, complete with drills, hammer, chisels and soil auger. This machine costs \$500.00 complete and is the most

efficient little piece of equipment that could be bought. In cavity excavation, smoothing down hurricane damage, cutting off large stubs, drilling through large trunk diameters, fertilizing and other work it will enable one man to turn out ten times the amount of work in a day than could be otherwise accomplished.

V. LESLIE HEBERT,
Tree Warden.

REPORT OF THE PARK COMMISSIONERS

To the Honorable Board of Selectmen,

Gentlemen:

The Park Commissioners submit the following report for the year ending December 31, 1939.

"Play for the adult is re-creation, the renewal of life; play for the child is growth, the gaining of life", as Joseph Lee often spoken of as "Father of the Playgrounds" said.

The increasing number of people who insist on participating in outdoor sports and games has created the problem not merely of providing the playing facilities but of securing the needed play space conveniently located for the use of the townspeople.

Routine care and maintenance has been given all parks.

The greens in all parts of the town have been mowed and gardens set out where possible. Because of the dry summer they shared the same fate as all of our lawns and gardens.

We are optimistic and hope this summer to give a touch of color and beauty to the townspeople and the thousands who drive through our town.

Much of the work done on parks has been through the W. P. A. These projects are necessary in order to give work to many and the greatest number of men may be used with the minimum amount spent for materials.

Much work on the Bradford Torrey Reservation has been done by Miss Sarah E. Brassill, Supervisor of School Gardens and Clubs and her able assistants of 4-H Club workers, boy and girl scouts and the ever interested and generous donators, The Weymouth Garden Club.

At Stella Tirrell Park we are happy to say that the Playground Apparatus has been installed and greatly welcomed by the children. It is hoped the project may be completed and tennis courts ready for use in the spring. The ball field was constantly used and enjoyed by all.

The Park Commissioners are urging the erection of a field house with toilet facilities and storage space for equipment.

The Weymouth Bath House was closed during the summer due to health conditions because of water pollution. This was missed by many and we sincerely hope conditions will clear up before summer. The money on the Park Budget allocated by the Park Commissioners for that purpose has been returned to the Town Treasury.

Voted to lease Bailey Meadow at Lovell's Corner for skating purposes. This has been enjoyed by the children.

According to vote of the Town Meeting of 1939 the Park Commissioners have conferred with the officials of Stetson Shoe Company concerning certain parcel of land used for playground purposes. The Commissioners recommend that the same policy that has been used in the past continue.

At this time we wish to thank the citizens of the town for their confidence and co-operation in developing our Park System.

Respectfully submitted,

EVERETT J. McINTOSH, *Chairman*
CHARLES W. BURGESS, *Clerk*

WEYMOUTH PLAYGROUND REPORT — 1939

The period of supervised play on Weymouth's playgrounds was begun this year on Monday, July 3 and was terminated on Friday, August 11. This followed the usual plan of a six-weeks period for supervised recreation. The personnel included: Charles Wintermyer, B. S., Ed. M.

Co-ordinators: Mark Hanabury, Warren Heffernan
Weston Park: Dorothy Vestburg; Rose Leonard
Webb Park: Marie Keohan
Lake Street: Albert DeLorenzo
Pond Plain: Meredith Bragg
Stetson: Phyllis Pray
Stella Tirrell: Stefani Konrad
Beal: Elizabeth Lesenesschal
Bradford Hawes: Leona Gregory

The weather was nearly perfect, not a single session being called off because of rain.

As usual, equipment and supervision were supplied for the following games: Baseball, Basketball, Punchball, Volleyball, Dodgeball, Paddle Tennis, Ping Toss, Horseshoes, Croquet, Shuffleboard, Quoits and Softball and Group games.

Bickness Park, in North Weymouth, was not included this year as it was being reconstructed. Beal's Park, however, offering more advantages, was used in its stead. Also, Stella Tirrell Park, in South Weymouth was added this year to the list of playgrounds offering supervised play.

There was no picnic this year because of the polluted condition present in the water and on the sand at Wessagussett Beach.

A trip to National League Field, however, gave the boys and girls an outing to be long remembered. This trip was arranged with the aid and cooperation of the Boston Bees and the Weymouth Gazette. Seven busloads of cheering children were conveyed to the "Beehive" and watched "Sailor Bill" Posedel, the Bee's ace hurler, defeat Gabby Hartnett's Chicago Cubs by a 2-1 score. The children left Weymouth about noon and all were safely home by 6 o'clock. This trip was a decided success from all viewpoints. For days afterwards, the plays in this game were used, by playground children, to illustrate their views when desiring advice from the coaches.

Another innovation this year was the discontinuance of a regular Handwork supervisor. The work in Handwork was given over directly to the individual playground instructors and each one worked out her own program, following which her articles were displayed in the Weymouth Playground "Handwork Hour" exhibition. This exhibition, shown to the general public from the windows of the Tufts Library in Washington Square, Weymouth Landing, and in the Sea Street branch in North Weymouth, proved very popular with the parents and the children. It showed just what fine results could be obtained with very moderate allowances by playground instructors with excellent ability.

Still another innovation this year with the introduction of Softball as a regular part of the supervised program for both boys and girls. As this game has become tremendously popular in adult circles, it is thought that proper coaching in youth will make the children more proficient in the sport as they play it in later adult life. A league schedule was played and enjoyed heartily by the youngsters. It did not, however, supersede baseball as the first love of the young boys.

As of last year, a campaign was carried on to help in ridding the town of Ragweed, the cause of annoying Hayfever. The playground instructors were led in this campaign by words of advice from Mrs. Sarah A. Brasil of the Weymouth School Department.

The two coordinators operated this summer on a definite planned schedule which, being made known to the individual playground instructors, led to a better organized system and more efficiency in the coaching of the youngsters.

The final standings of the Weymouth Playground League showed that Weston Park was the winner in both divisions. The season standings were six wins and one loss for the Juniors, and nine wins and no losses for the Midgets. In the announcement of individual awards, Weston park also fared very well as John "Lefty" Murray received an official League ball for his fine pitching record of four wins and no losses (one win was a no-hit no-run victory), the best in the league; Captain Michael Gorman and first baseman Ralph Amabile were awarded new officially autographed baseball bats indicative of their batting prowess, the best in the league. In the older division the leading batter was Paul McCarthy of Stella Tirrell park.

The playgrounds were very well equipped for the most popular sport, baseball. More than 180 boys between the ages of 9 and 15 were actively engaged in playing interplayground League games. The first week of the season was devoted in entirety to coaching the boys in the fundamentals of the game. As was the situation the previous year there were two divisions in the League — the Midget division, composed of boys under 12 years of age, and the Junior division, composed of boys between the ages of 12 and 15. In addition the new Softball League was inaugurated with Warren Heffernan as the coach. Coordinator Mark Hanabury was the baseball coach, assisted frequently by Warren Heffernan.

On Tuesday, July 11, the first League game was played. For the four consecutive weeks thereafter (with the exception of the day of the trip to National League Field) a game was played every morning and every afternoon, comprising a total of 36 games. Enthusiasm ran high and the league standings, as well as the individual averages, were eagerly followed as published in the Weymouth Truth, the Weymouth Gazette and the Quincy Patriot Ledger. Immediately following is a list of the numbers of boys actively engaged in baseball at the various playgrounds in 1939:

Bradford Hawes Park	35
Stella Tirrell Park	20
Lake Street Playground	28

Beal's Park	16
Weston Park	45
Pond Plain Playground	16
Stetson Field Playground	20
Webb Park	25

The primary stress was of course on the fundamentals of the game, but as the season went on, the boys were taught to think their plays out beforehand and concentrate on the so-called finer points of the game. Although the teams were well-equipped the lack of a home field handicapped the teams at Webb and Beal's Parks. The situation at Webb Park was remedied midway through the season, however.

The sixth and final week was spent in tournament contests and games staged at the various parks. As usual the Coordinators transported the contestants from their home playgrounds to the scene of the contests. Each winner, of any event, was awarded a scroll on which was written his or her feat of winning in the tournament.

The results of the tournaments showed the following girls and boys to be the champions of the Town for 1939:

REPORT OF THE SUPERINTENDENT OF FIRE ALARMS

February 12, 1940

To Chief Timothy G. McCarthy,

Weymouth Fire Department:

I respectfully submit the annual report of the Fire Alarm System of the Weymouth Fire Department.

During the year the following alarms have been transmitted over the System:

Alarms for Fires	179
Second Alarms	5
Third Alarms	1
No School Signal	3
Chief's Call (3 blows)	5
False Alarms	13

The outside wire is in good condition, there being very little trouble from this source.

A large number of poles are being changed over each year making added expense to the Department.

One new Fire Alarm Box was added to the System.

In concluding I wish to extend my sincere thanks to all for the services and co-operation rendered at all times. I wish to especially thank former Superintendent Francis Coolidge who gave his services, without compensation, from the time Stanley Blanchard died until the new Superintendent was appointed.

Respectfully submitted,

CEDRIC J. SALISBURY,
Superintendent of Fire Alarms.

In Memoriam

STANLEY BLANCHARD

Acting Superintendent of Fire Alarms

Died March 10, 1939

REPORT OF THE TOWN COUNSEL

January 13, 1940

To the Honorable Board of Selectmen.

Gentlemen:-

I hereby submit my report as Town Counsel for the year ending December 31, 1939.

During the past twelve months the Town has been very fortunate in not having any considerable number of new cases entered against it. In this regard it is the best year that the Town has experienced during my tenure of office as Town Counsel.

Referring to my last report in which it was stated there were two cases of major importance pending I should like to point out that one of them, namely the case of Thomas H. Hannaford vs. the Inhabitants of the Town of Weymouth, and having to do with the erection of a Water Filtration Plant at Weymouth Great Pond, has been judicially determined and has resulted in a verdict for Mr. Hannaford in the total sum of \$12,337.37. To this amount interest from the date of the writ must be added. In this suit the ad damnum was in the sum of \$30,000. and the declaration set forth in 89 items a total amount of \$16,567.97 that the plaintiff — Hannaford — contended the Town owed him in consequence of his work under the terms of the contract. These items are partly for "extras" ordered and installed or constructed at the Filtration Plant. Of this sum \$2,573.51 was due Mr. Hannaford under the original contract. After trial the Auditor appointed by the Superior Court to determine the issue found the plaintiff entitled to compensation in full on many of the items, in part on some and rejected payment on many others. The conclusion arrived at however was not in serious disagreement with the testimony offered at the hearing by the witnesses presented on behalf of the Town.

The other case of transcendent importance is the Petition in Equity concerning the Laban Pratt Trust Fund. This matter has been set forth rather fully in the Town Counsel's reports for 1936, 1937 and in 1938, consequently I shall only state the situation as it now is. So far as Court action is concerned the matter rests as it was a year ago, viz., a Petition in Equity before the Probate Court of Suffolk County aimed at forcing the Town to carry out the provisions of the will forthwith — establishing a hospital now. In accordance with the vote of the Town under Article 33 of the Annual Town Meeting of 1939 however it is my understanding that the Town did not desire at this time to use the bequest for the purpose expressed because of the danger that its establishment would eventuate in a burden upon the taxpayers at some future time because of the present inadequacy of the sum to accomplish the intent of the benefactor — Mr. Laban Pratt. It is my opinion however that the judicial determination of this Petition may not be long delayed. During the period since my last report the fund has increased in total amount from \$507,012.33 to \$519,102.42 as of December 31, 1939 and this amount is now available for the purposes of trust. This represents an addition of \$12,090.09 for this year.

There has been less litigation during this year than the Town has had for some time but many small matters have been completed without the necessity of trial to the satisfaction of both parties. The aggregate amount involved in these settlements has not been large.

It is an ever accruing source of satisfaction to me to enjoy the confidence and co-operation of the heads of the departments and the various Town Boards and Officers with whom the Legal Department has dealt. May I express to the Board of Selectmen my appreciation of their helpful assistance in the conduct of my office.

Respectfully submitted,

KENNETH L. NASH,
Town Counsel.
